Act!onHeat has received funding from the EU Horizon 2020 programme under Grant Agreement No 101033706

Turning heating & cooling strategies into low-carbon projects

Delivering the tools and methods to get local heating and cooling projects off the ground

© Pramote Polymate

What we do

Act!onHeat will enable and accelerate local Heating & Cooling transitions by:

- identifying success factors of effective Heating & Cooling plans and turning them into practical workflows;
- developing individual and group support activities to guide municipalities, local planners and stakeholder in applying these workflows;
- facilitating finance and the design of effective projects and policy frameworks through Europe-wide events and advocacy activities.

Act!onHeat tools

Act!onHeat solutions, methods and capacity-building programmes are developed with and built upon the projects THERMOS and Hotmaps and their open-source planning tools.

THERMOS

Support Facility

- Providing individual tutoring and THERMOS & Hotmaps tool application training
- Case specific energy mapping & modeling support

Training & Capacity-Building

- Offering free online trainings to local energy planners and stakeholders
- Developing freely accessible knowledge and capacity building materials

Local to EU Policy & Project roll-out

- Enabling and informing effective local to EU policy design through a pan-European Act!onHeat event series and dedicated policy dialogues
- Connecting Heating & Cooling stakeholders from across Europe via the Act!onHeat Ambassador Programme

www.actionheat.eu

How to get involved

Apply to the Act!onHeat Support Facility

- The free Act!onHeat Support Facility offers individual, case-by-case support to local energy planners, from the development of Heating & Cooling plans to project prefeasibility-studies, financing and implementation.

Sign up for Act!onHeat online Training

- Act!onHeat online trainings enable local planners to increase their network and knowledge for designing and rolling-out strategic Heating & Cooling plans with the Act!onHeat open-source planning tools: THERMOS & Hotmaps.

Join Act!onHeat Public Events

- Connect and discuss with local to EU energy and climate policy and finance experts at Act!onHeat public events to create the necessary frameworks for successful local Heating & Cooling transitions.
