

# Leader in Energy IoT Platform

Energy IoT Platform Provider, NuriFlex Co., Ltd.

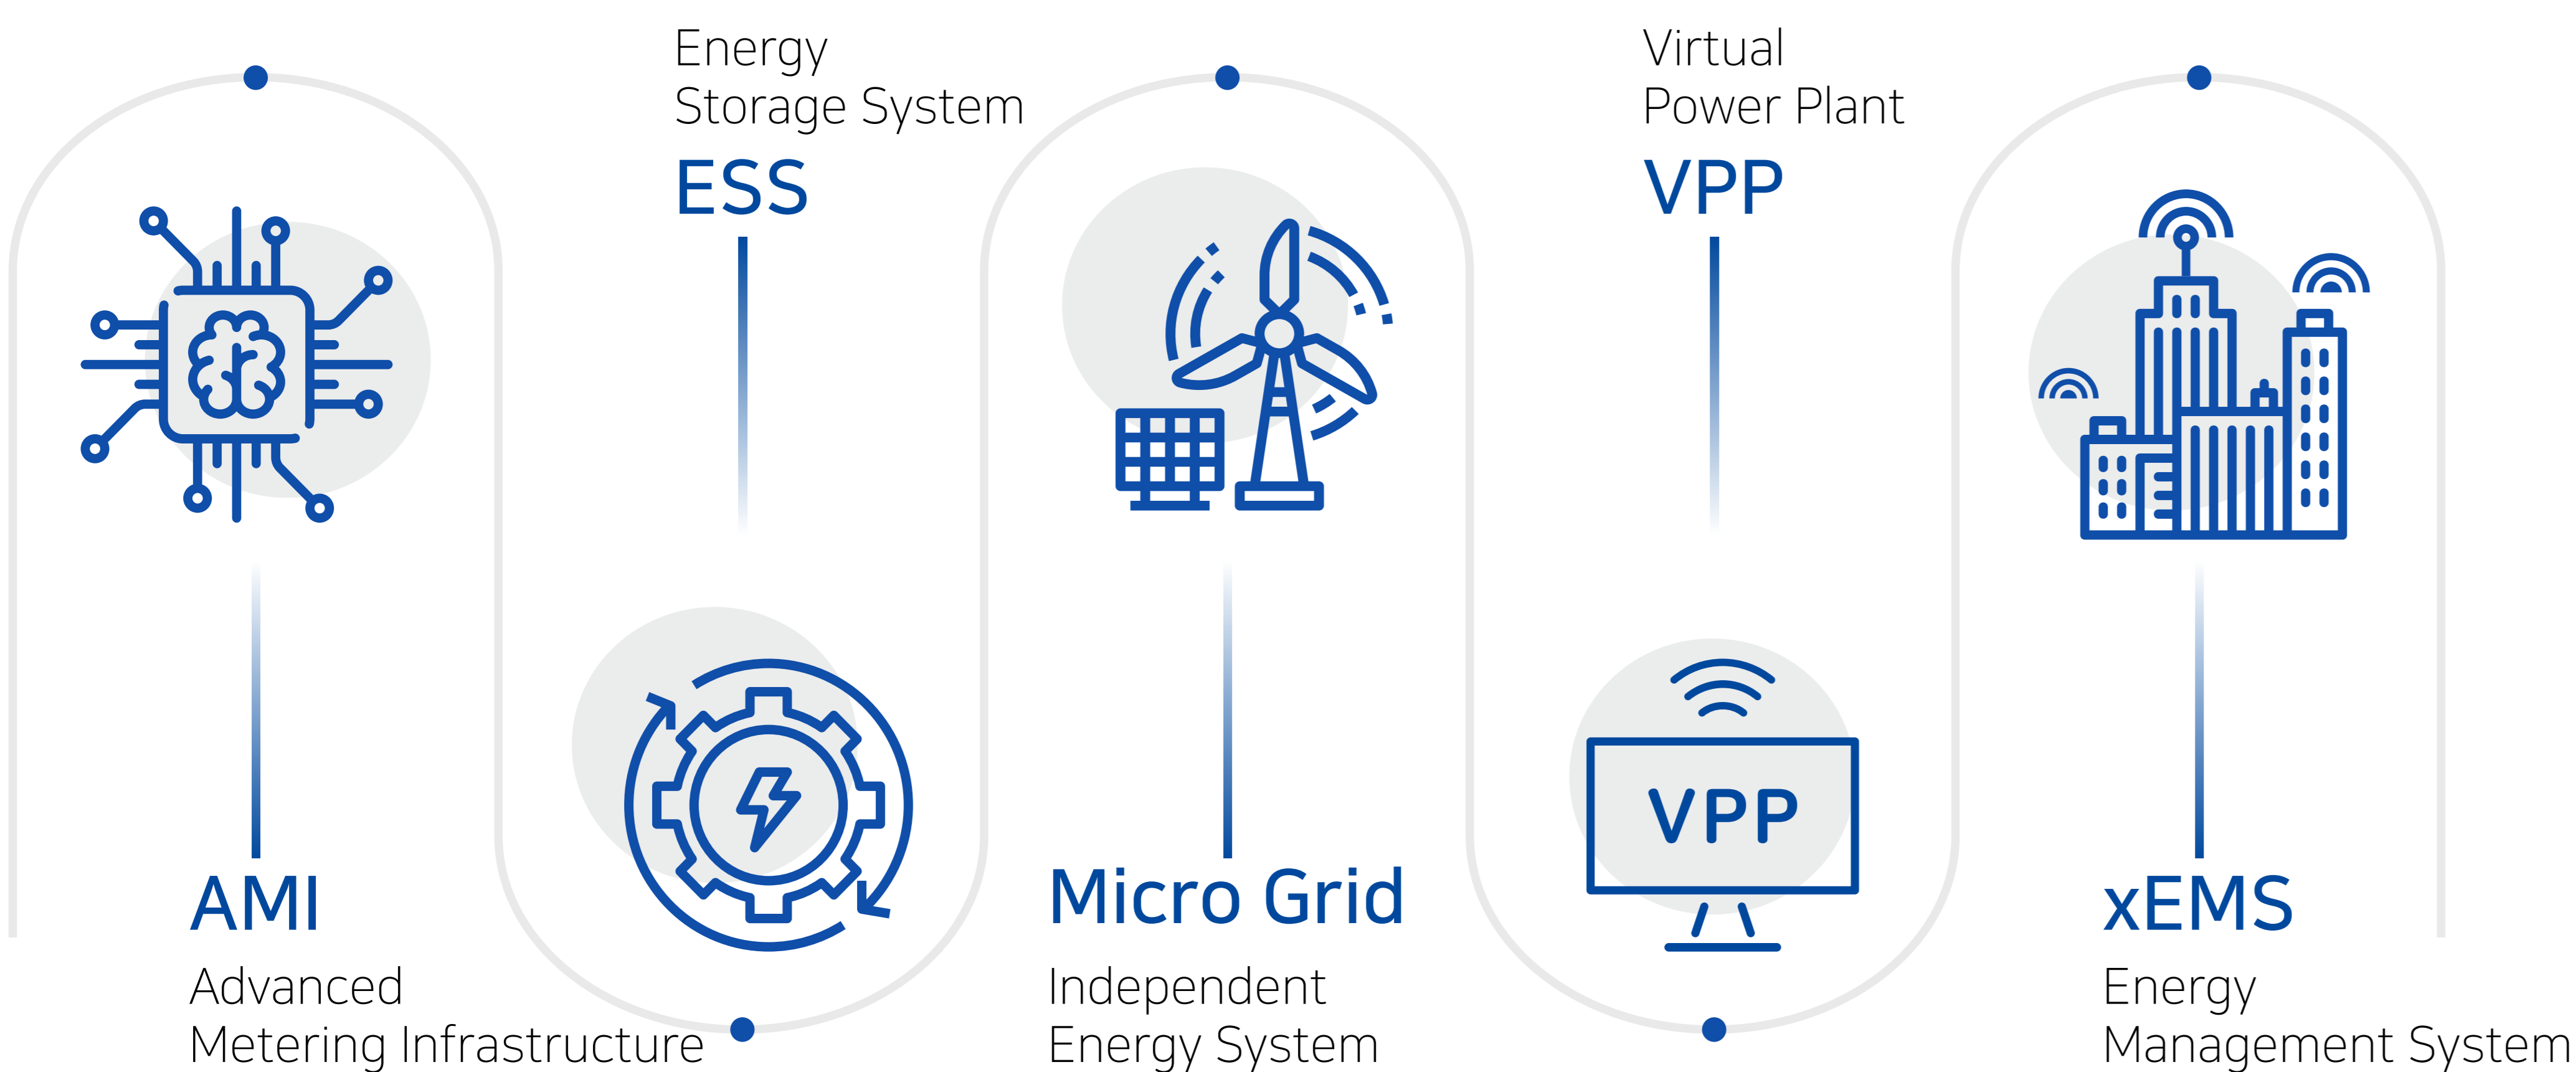

NuriFlex Co., Ltd.

## Enjoy Smart Life in Green World

NuriFlex focuses on **Advanced Metering Infrastructure (AMI)** products, which are core solutions of Smart Grid, using communication software and application solutions. It also provides energy IoT Platforms using EMS, ESS, VPP, and Micro Grid System.

CEO	Young Duk Kim	
Employees	150 employees	
Foundation	March, 1992	
Overseas Corporation	NuriFlex Japan NuriFlex Vietnam	

Leader in End-to-End AMI & IoT Infrastructure Solutions

## Energy IoT Platform Provider

NuriFlex has created **AMI systems** for 3,040,480 high and low-voltage clients of the Korea Electric Power Corporation, the world's first national-scale project of this nature. Also, NuriFlex's AMR/AMI/prepaid AMI systems are chosen as power-efficient solutions by 46 global utility companies, including Sweden, Norway, Ghana, Thailand, and Vietnam over 1,699,299 clients.

NuriFlex has researched energy IoT technologies since 1995 at its corporate research center. Through 30 years of research, it has achieved **technological competitiveness** and many advantages.

Starting with AMR (Automatic Meter Reading), it has achieved numerous technological certificates (CE, FCC, KC), including over **70 international and domestic patents**.
