

Piclo Flexibility Festa!

Piclo is delighted to welcome you to our stand to celebrate some exciting news! Join us for a glass of porto and handmade pastel de nata to hear about the latest DSO flexibility markets developments in Europe and a chance to meet the Piclo team along with leading professionals from European flexibility markets.

 Wednesday 30 November, 15.30–17.30

 Piclo stand 12.1.G154, Enlit Exhibition Hall 12.1

We hope to see you there!

P.S. Beer, wine and nibbles will be available too.

Piclo's mission is to decarbonise the grid.

We develop software solutions that make our energy networks smarter, flexible and more sustainable. Our flagship product, Piclo Flex is the leading independent marketplace for energy flexibility services, enabling Distribution System Operators to source energy flexibility from Flexibility Service Providers during times of high demand or low supply.

The world's leading marketplace
