

ILSA

Involve your
community
to raise funds
and gain support
for renewable
energy projects,
and profit together

Our mission

Our mission is to empower pioneers in the renewable energy sector by offering innovative, white-label platform solutions. We simplify the structuring, issuance, and trading of financial assets, making it easier to raise funds, share ownership, and distribute profits of renewable initiatives.

Our services are designed to create both a sense of excitement and community among our users. We aim to unite businesses and individuals in a joint effort to develop renewable capacities, address grid congestion, and pave the way for a sustainable energy future.

Our proposition

What

Funding,
Democratization,
Disposal,
Shared ownership

Who

Cooperatives,
Businesses,
Umbrella organizations,
Associations,
Foundations

Why

Renewable capacity,
Energy legislation,
Grid congestion,
Electrification

How

White-label
platforms as a service
for community-
based finance
and ownership
