

Mainlink Consumer App

The app displays nearly-live consumption data, provides measured analytics and sends instant alert notifications based on pre-set parameters.

Mainlink's mobile app improves consumers' water consumption behaviour, reduces costs and helps businesses contribute to sustainable usage of natural resources.

EASY ACCESS

Register meter by **simply scanning a barcode or QR Code**. All meters that belong to the user will be added automatically.

SERVICE

In the event of an emergency, the app allows **calling emergency technical service as soon as the alert is received**.

CONSUMPTION TRACKING

Get detailed information about **the total consumption of all meters at multiple objects as well as separate consumption** of each resource or individual meter.

ALERT NOTIFICATIONS

To ensure a quick response and avoid possible damage, any recorded alert such as water leakage, pipe burst or freeze, will be **sent to your phone immediately as an alert notification**.

ANALYTICS

Household consumption is shown for the current month and is broken down by day (last 30 days), week (last 12 weeks) and month (last 12 months). **Compare current consumption with the previous period** in a simple graphical way.
