

How Energy companies stay ahead of the competition

with Spotfire® visual data science

+1.7 million

Barrels per day forecasted rise in global demand for oil in early 2024¹

971 rigs

Total number of international rigs as of March 2024, up from 2023²

550 GW

Increase of nearly 20% for main forecast of global renewable capacity additions in 2024³

+\$4.6 trillion

Expected to be generated by the global upstream industry from hydrocarbons by 2030⁴

30%

of the world's electricity came from renewable sources in 2023⁵

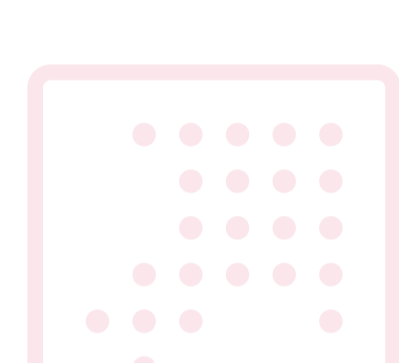

>70%

Of the world's O&G producers face aging infrastructure⁶

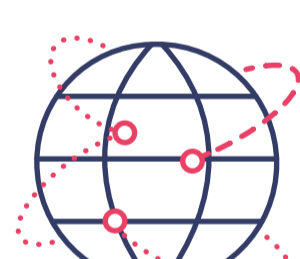

2.5x

Increase in upstream O&G drilling activity for companies with operating models⁷

Why Spotfire® for Energy?

With +150 extensions to choose from—the world's leading Energy companies trust Spotfire® visual data science to solve their most complex challenges.

20 of 20

Spotfire partners with the top 20 leading Energy companies around the world

<24 hrs

Spotfire finds new data patterns for Energy customers in less than a day

Remain competitive in the evolving Energy landscape. Get started with Spotfire today to gain actionable insights, prevent downtime, and optimize operations.
