

Where energy services meet sustainable finance

The ENERGATE marketplace is an ICT-based platform which, on the one hand, aims to mobilise and accelerate the creation of NECP-compatible credible project pipeline, and, on the other, aims to facilitate the financial closure and project implementation by offering standardisation, risk mitigation and appropriate “packaging” of investments.

Co-funded by the European Union under project ID 101076349. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor the granting authority can be held responsible for them.

Building renovation investments made easy, predictable, and risk-weighted

Large and standardised project development facility

Asset bundling scaled investment

Feedback loops to measure the impact of the platform

Matching opportunities with investors

Business matchmaking, quality assessments, and rankings

How?

STAGE 1 | FETCH

Collect information on building renovation projects in a structured manner. Ensure that key technical and commercial information is properly declared. Users will also select their preferred financing methods and compare performance KPIs.

STAGE 2 | PROCESS

Identification of similarities between projects and investors KPIs which might result in bundles. ENERGATE enables the best combination of projects and project financing based on KPIs, and financial indicators provided.

STAGE 3 | DELIVER

Follow up on projects, continuous feeding of the database, validation of M&V methodologies, and definition of relevant KPIs and benchmarks. Development of a user profile management functionality.

Expected impact

5 PILOT PARTNERS IN 6 EU COUNTRIES

UP TO **180** BUILDING RENOVATION PROJECTS

UP TO **66** FINAL ENERGY SAVINGS
GWh/year

UP TO **157** TRIGGERED INVESTMENTS
Million Euros
