OpenADR++ Users Conference Europe November 19-20, London UK

Our second OpenADR++ User Conference is scheduled for Nov. 19-20 in London. This year we look forward to showcasing initiatives including the latest developments in the UK IDSR program, forward looking ideas, and other European activities. Many of these are also impacting the EV revolution as well what's in store for VPPs and the cross-DER strategy. Sessions over the two days will explore the effectiveness of current projects, identify opportunities for future collaborations, and provide industry-networking opportunities. In addition, attendees will learn about the latest programs of the UK Energy Networks Association (ENA).

The event will be held at the Business Events Centre (BEC) at 3-8 Whitehall Place, London, SW1A 2AW, and is sponsored and co-hosted by the UK Department for Energy Security & Net Zero (DESNZ).

Early bird pricing is available until Oct. 31st and space is limited.

If you have any questions please email events@openadr.org.

We look forward to seeing you in London!
