

triPica.

SaaS Customer and Billing Platform for Utilities.

Powering smarter, faster, sustainable
innovation and growth.

With triPica **meet the demands** of the *evolving customer*

All-in-one platform for utilities

Manage multi-service subscriptions including electricity, gas, water, waste, fiber, and mobile on a single platform.

Facilitate the energy transition

Integrate renewables into the energy mix to align with sustainability goals.

Rapid launch, seamless migration

Launch in just months, then transition your legacy customers effortlessly

Monetize energy innovations and new usages

Innovate in days with dynamic tariffs, flex, auto-consumption, heat pumps, storage solutions, and EV-to-X.

Reduce costs by 40%

Optimised business processes for utilities, lower bills for your customers

Scale internationally

Proven multi-country platform to scale across Europe and beyond.

enercity

Leading the Way in Digital Energy Transformation

In 2017, enercity migrated hundreds of thousands of electricity customers from **SAP IS-U to triPica**, launching a customer-centric **digital CRM and billing solution**. Leveraging triPica's flexibility, enercity introduced solar panel sales in 2020 and migrated gas and water customers in 2023.

By addressing the unique demands of the German market, triPica empowered enercity to **redefine customer experience** and **unlock new growth opportunities**, paving the way for future innovations.

THE MOBILITY HOUSE

Europe's first V2G energy offer with Renault

The Mobility House launched groundbreaking **Vehicle-to-Grid (V2G)** energy offer in France. Launched for Renault's innovative R5, the first mass-market V2G car, this service empowers EV owners to **sell energy back to the grid** during peak hours.

By leveraging bi-directional charging, TMH helps their customers to reduce energy costs, contributes towards stabilisation of the grid, while **transforming EVs into pivotal assets for the energy transition.**

Innovating for international growth

Swiss energy provider Primeo Energie partnered with triPica to expand beyond its home market.

With **multi-country growth ambitions**, Primeo Energie chose triPica's **scalable platform**, to successfully enter the French market and is now exploring further expansion into Italy, differentiating itself through innovative offers, dynamic tariffs, and exceptional customer experience.

triPica.

SaaS CUSTOMER AND BILLING PLATFORM

**Energy Flexibility.
IT Flexibility.**
