Our Experience

The comprehensive customer experience with QUIXOTIC

01 You sign a new client

QUIXOTIC can be the products catalogue and pricing master copy.
We centralize contract information, contacts, products, invoices.

03 Billing and Collection

Billing, as automatic as you want it to be. Monthly billing cycle or DSOs billing cycle.
Efficient and transparent collection processes via SEPA bank files.

05 Energy Purchase / Trading

Integration with Strategic energy purchasing platforms.
Energy trading to maximize savings and sustainability.

02 Actual Contracting

Contract lifecycle adjustment and automated data integration with DSOs.
We streamline errors and "back and forths" between the DSO and the utility.

04 Reports

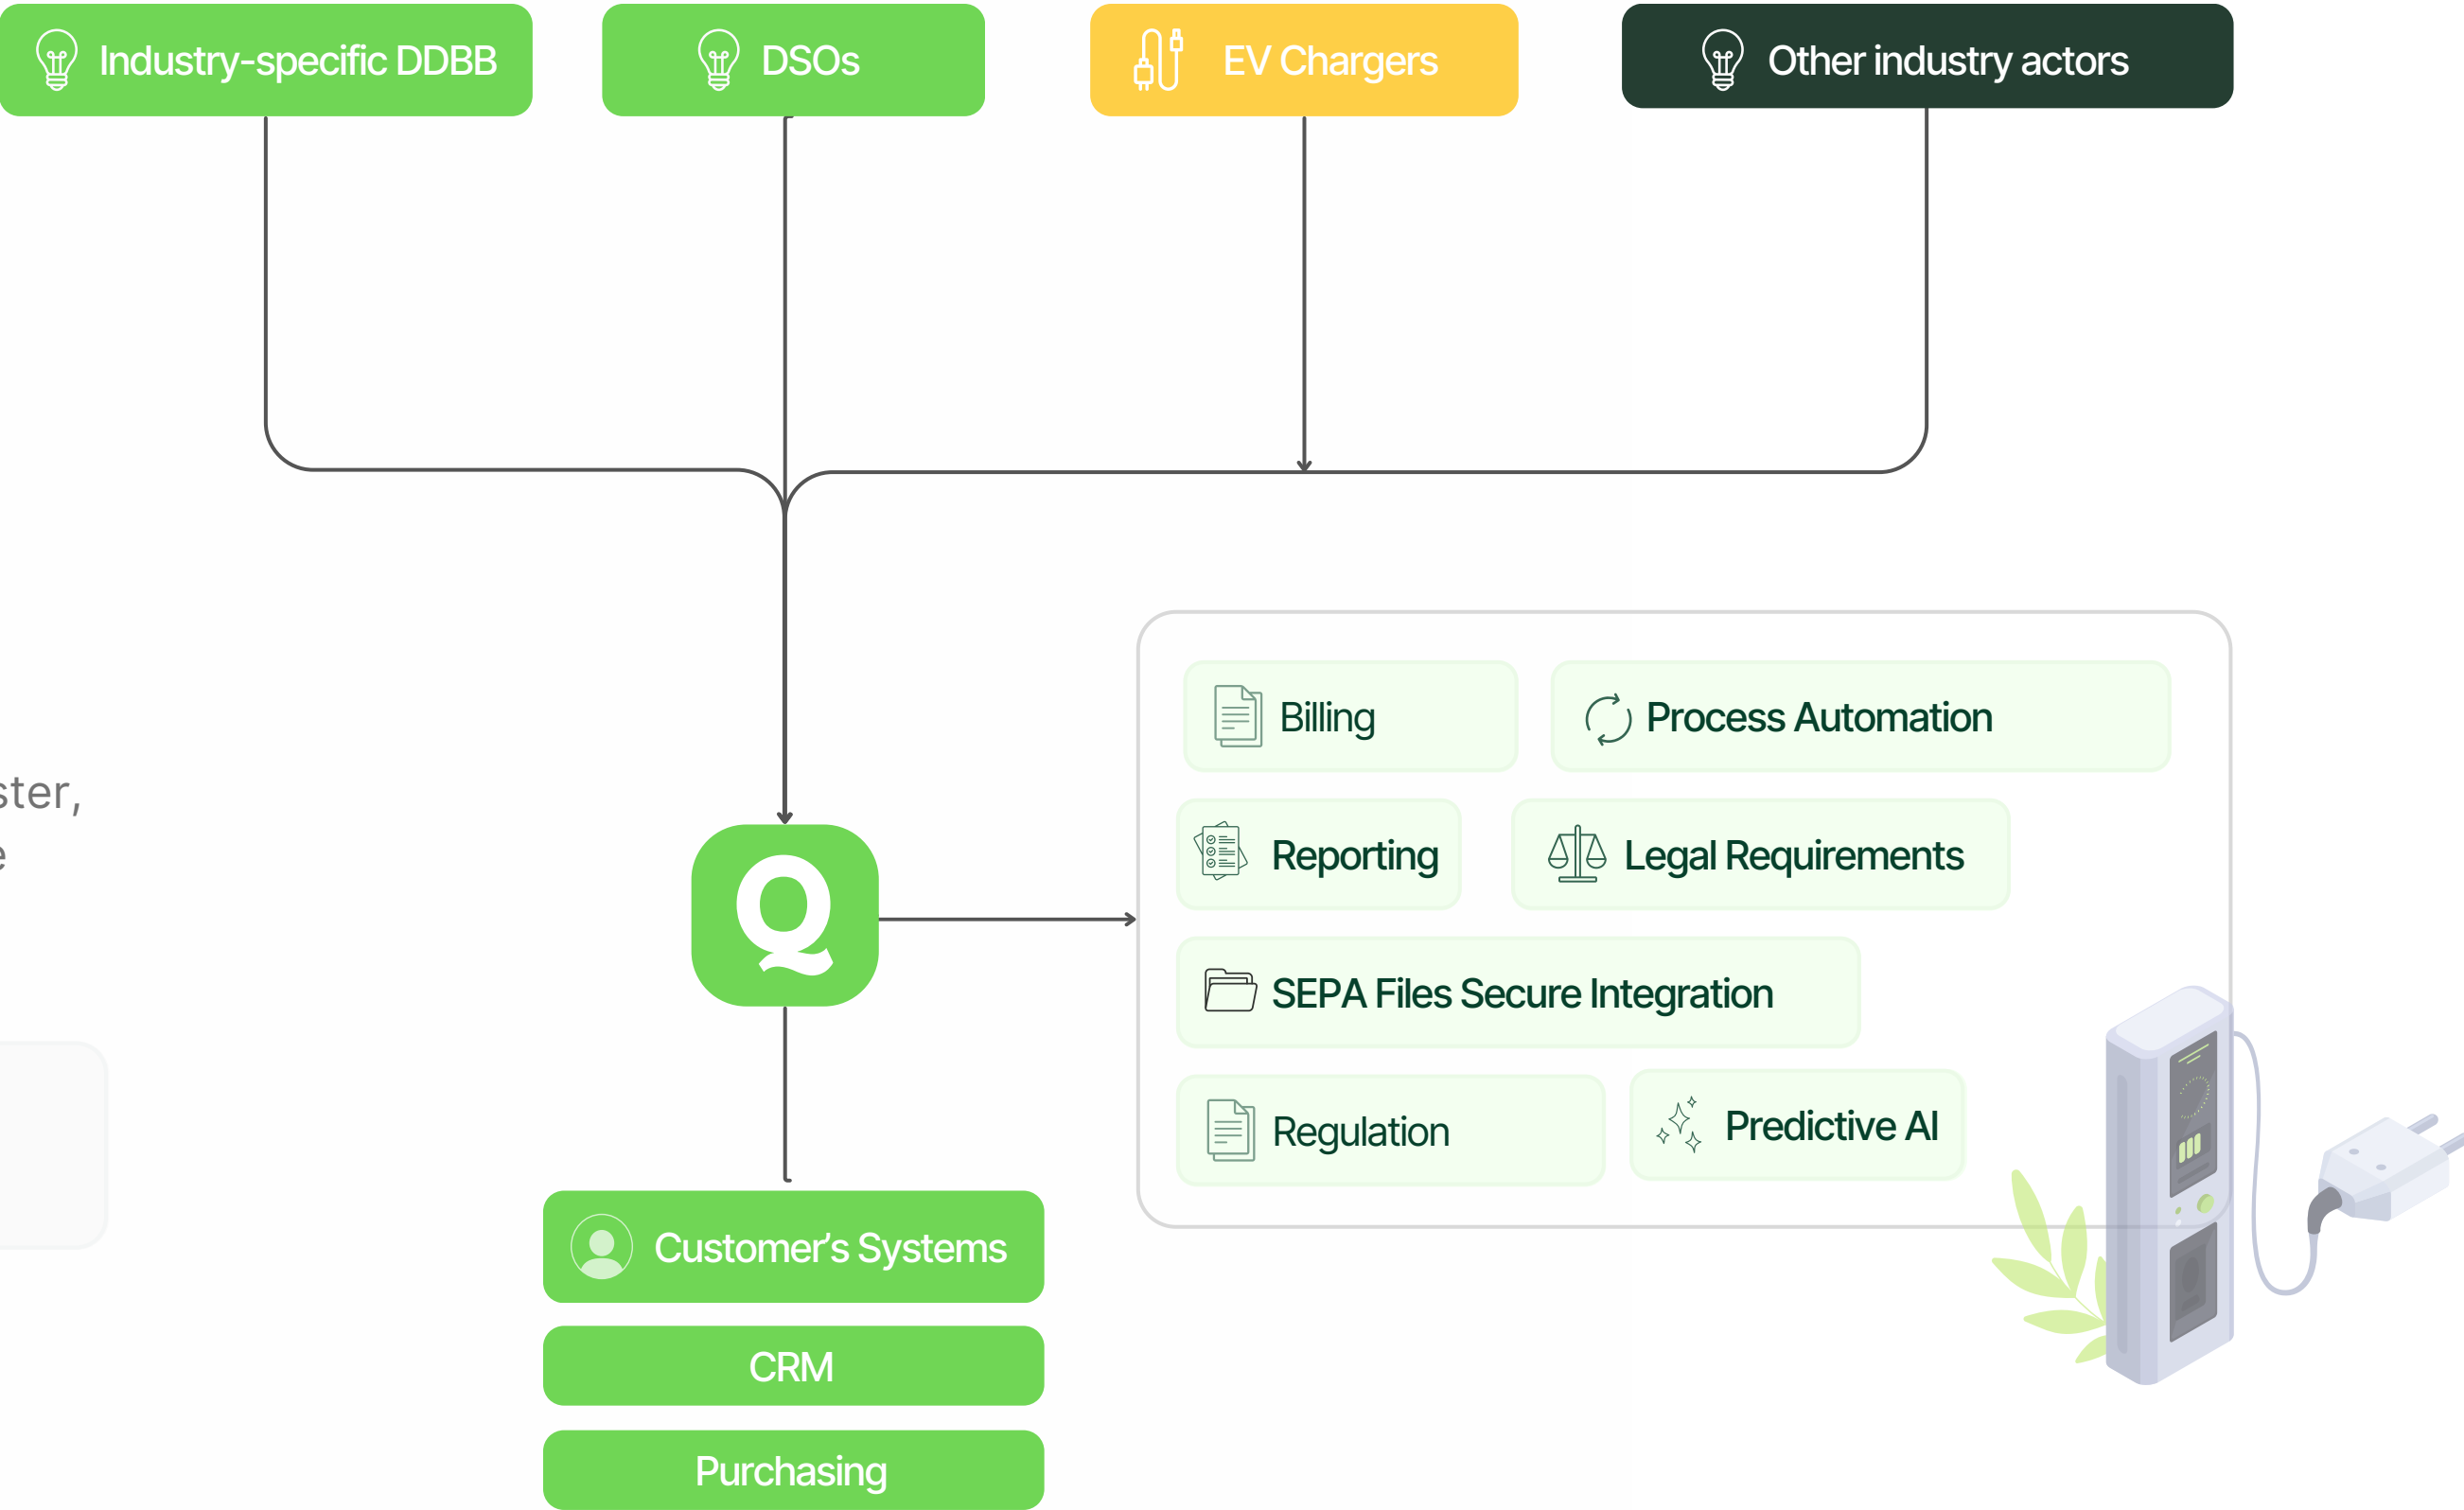

Regulatory reports, as well as operational dashboards.
Access to customized reports.

Architecture

Our solution ensures that workflows are faster, more efficient and scalable, adapting to the client's specific needs.

 Completes regulated processes **5x faster** than our competitors.

Benefits and Value Proposition

Simplification, scalability, and efficiency at your energy business's fingertips.

Q QUIXOTIC redefines energy management with advanced processes, unlimited scalability, and the best experience for customers and managers.

Broad integration with DSOs

We integrate with the main electricity and gas DSOs, covering more than 200 operators through flexible and adaptable integrations.

Leading DSO groups

Portals Aggregating dozens of DSOs

QUIXOTIC

Innovation, efficiency, and sustainability to drive your business forward
