YIFA HOLDING GROUP CO., LTD.

Brief Of Introduction

YIFA Large Modernized Production Base Building area: 180000 ㎡

A smile makes us passionate, and an approval makes us brave to go forward.
Honor is our one road sign and one testimony of our efforts...

China YIFA Holding Group Co., Ltd. is a national high-tech enterprise group specialized in industrial electrical technology and also engaged in finance, e-commerce and trade and investment. We are one of the top 500 companies in China, and also we are one of the top 500 companies in machinery industry. The national spark program enterprise, famous brand and trade mark in Jiangxi province. It is the designated supplier for centralized procurement by State Grid, China Southern Power Grid and national hydrological system. Its subsidiary Jiangxi YIFA Power Technology Co., Ltd. was listed in 2016 with the stock code 870154. The Group mainly develops, produces and sells such low-carbon, energy-conserving and eco-friendly products as photovoltaic substations, wind power substations, eco-friendly gas insulation ring main units, complete sets of electrical equipment, HV and extra high voltage substation equipment, glass reinforced plastic electric meter boxes, stainless steel and transparent boxes, HV and LV elements, wires and cables, explosion-proof electric apparatuses, building appliances, instruments, etc. The maximum capacity of transformers reaches 63000KVA and the voltage class reaches 220KV.

The Group owns three specialized industrial bases: Shanghai, Wenzhou and Jiangxi, five wholly-owned subsidiaries: Jiangxi YIFA Power Technology Co., Ltd., Shanghai YIFA Electric Co., Ltd., Zhejiang YIFA Import & Export Co., Ltd., Jiangxi YIFA Wires and Cables Co., Ltd., Yueqing YIFA Import & Export Co., Ltd., over three hundred agents and direct sales companies and over five hundred dealers all over China and its production and sales scale is at a leading position in multiple industries.

On the present day when optimized energy deployment and optimal energy utilization are proactively advocated, the Group follows the main policy of technology, environmental protection, energy conservation and low carbon and strives to develop sustainable power energies and Jiangxi Industrial Base follows the main research and development direction of photovoltaic and wind power.

The Group focuses on brand strategy, insists on marketing innovation and is listed among leading electrical industry players due to its rapid, healthy and continuous development trend. In the intense market competition, YIFA successively won the bids with State Grid Nationwide Power Corporation, successively won such international famous projects as Beijing Asian Games Village, Olympic Games supporting projects, etc., won extensive reputation and influences on the international stage and led "Made in China" towards "Created in China". YIFA products are widely applied in State Grid, China Southern Power Grid, high-speed railway, urbanization construction, oilfields, thermal power generation, airports, iron and steel companies and gas supply and heat supply and are sold to multiple countries and regions such as Japan, America, Russia, Southeast Asia, Middle East and Africa. By following the philosophy of customer orientation, the Group won good market reputation both internationally and domestically.

Technology creates quality and practical and hard work makes the dream come true. Looking forward to the future, YIFA will insist on the development strategy of specialization, be realistic and pragmatic, implement exploration and innovation and follow the goal of "building the globally leading substation enterprise and making the global brand for YIFA that lasts one hundred years". We hope that domestic and foreign peers and massive customers cooperate with and support us as always to contribute more to the "Chinese Dream".

China YIFA Holding Group Co., Ltd.
A full industry chain electric integration provider

SECURE GUARD,
CHOOSE FOR LOVE

YIFA®

From modeling design to material selection,
after repeated polishing,
YIFA focuses on creating quality electricity life

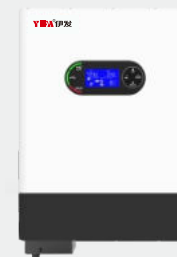

Intelligent charging station series

PV energy storage inverter series

Off grid inverter

PV energy storage inverter

IP65 PV energy storage inverter

PV energy storage cell

Industrial and commercial PV energy storage inverter

LV electrical equipment

Intelligent combination switch, reactive power compensation controller, residual current circuit breaker, contactor, intelligent power capacitor, knife switch, disconnecter, automatic re-closure moulded case circuit breaker, intelligent electronic circuit breaker, small automatic re-closure circuit breaker, 10kV high efficiency mini breaker, intelligent dual-power-supply switch and surge protection device.....

MCB

Leakage Monitoring MCB

External MCB For Energy Meter

Pre-paid MCB

Payment Meter MCB

Small leakage MCB

LV electrical equipment

Instructions for Installation and Use of YFNL Residual Current Circuit Breaker

YF47LE series leakage circuit breaker

YFID-63 Residual Current Operated Circuit Breaker

YF360 Residual Current Operated Circuit Breaker

CJX2 series AC contactor manual

YFY1 series surge protectors

UNPARALLELED, COMMITMENT TO QUALITY

Transparent electricity meters / FRP electricity meters

YIFA Electric provides integrated solutions to many countries around the world, leading in energy and infrastructure, industrial manufacturing, building automation and data centers and networks.

LV electrical equipment

Technology creates quality and practical and hard work makes the dream come true. Looking forward to the future, YIFA will insist on the development strategy of specialization, be realistic and pragmatic, implement exploration and innovation and follow the goal of "building the globally leading substation enterprise and making the global brand for YIFA that lasts one hundred years".

IOT Electronic circuit breaker

Automatic re-closure circuit breaker

Intelligent Measuring Switch

PV DC MCCB

PV Frame Circuit Breaker

YFM2E Electronic MCCB

LV electrical equipment

Compound switch

Dual power automatic switching device

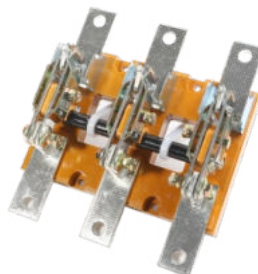

Reactive power compensation controller

Intelligent microprocessor protection device

Condensation controller

Block switch

5G smart series

5G intelligent communication integrated power supply

Intelligent microcomputer DC screen

FTU/TTU/DTU(box type)

Photovoltaic new energy substation equipment series

Energy Storage Container

Pv Power Distribution Box/ PV Power Distribution Cabinet

Photovoltaic Chinese substation

Container for photovoltaic inverter

Mine high and low voltage switchgear(KA/KY certification)

Mining Low Voltage Switchgear

Mining Transformer

HV and LV complete sets of power substations

European and American box type substations: YFYBW 35kV eco-friendly combination type substation, YFYB eco-friendly intelligent pre-fabricated substation, YFYB6 intelligent integrated substation, YFYBF wind power substation (European style), YFYBF6 wind power substation (American style), YFYBG landscape type stainless steel substation, YFYBT photovoltaic intelligent box type substation.

Box body: transparent anti-power-theft electric meter box (box body), intelligent multimedia box, YFTD28 equipotential bonding terminal box, telephone junction box, YFPZ30 distribution box (box body), YFPZM30 distribution box (box body), YFPZX30-T distribution box (box body), YFPZ40 electric meter box (box body), JXF(JFF) control box, mobile box on the outdoor site, outdoor rainproof box, customized box, QHX dedicated chassis series with dual power supplies, non-standard product assembly, multi-functional high-protection plastic electric meter box an glass fiber reinforced plastic electric meter box series.

Intelligent outdoor inflatable ring main unit

Environmental protection aerated ring cabinet /
Solid insulation ring cabinet

YFYB environmentally intelligent
prefabricated substation

Product model of landscape-type buried box-type

Power Transformers

Capacity regulating transformer: S13 on-load automatic capacity and voltage regulating transformer

Oil-immersed transformers: S13 and S11 10kV distribution transformer, 20kV distribution transformer, single-phase oil-immersed transformer, 35kV power transformer, 110kV power transformer, 220kV power transformer, SBH15 amorphous alloy oil-immersed transformer, S13-M.RL triangular 3D roll-core transformer

Dry type transformers: epoxy resin cast dry type transformers: SC (ZB) 9 series 10kV epoxy resin cast dry type transformer, SC (ZB) 10 series 10kV epoxy resin cast dry type transformer, SC (ZB) 10 series 20kV epoxy resin cast dry type transformer, SC (ZB) 9/10 35kV epoxy resin cast dry type transformer, SBH15 series 10kV amorphous alloy dry type transformer and eco-friendly dry type transformer.

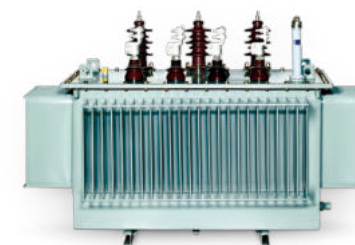

10kV Triangular 3D roll-core transformer

Dry-type transformer

Amorphous alloy transformer

Oil immersible power transformer

On-load automatic capacity and voltage
regulating transformer

110kV EHV transformer

HV/LV complete set

GCK Withdrawable switchgear cubicle

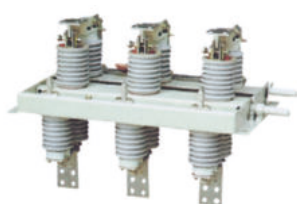

GGD Fixed switchgear cubicle

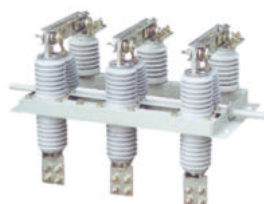

KYN28-12 AC Metal-clad withdrawable enclosed switch-gear cubicle

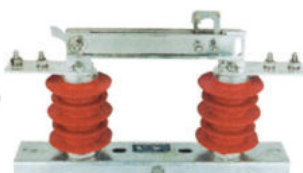

HV Isolating Switch Series

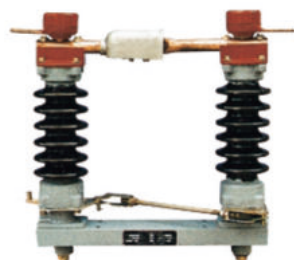

GN30-12 (D) rotary disconnecting switch

GN19-12 (C) indoor high-voltage isolating switch

GW9 outdoor high voltage switch

GW4-40.5 outdoor high voltage disconnecting switch

GW5-40.5 outdoor high voltage disconnecting switch

Drop-out fuse

The drop type fuse is composed of three parts: insulated support, rotor contact and fuse tube. The static contacts are installed at both ends of the insulated support, and the fuse tube is composed of the inner arc quench tube and the outer phenolic paper tube or the oxygen-reducing glass fiber cloth tube.

12kV-15kV Drop-out fuse cutout

10kV Drop-out fuse cutout

10kV Drop-out fuse cutout

15kV Drop-out fuse cutout

15kV Drop-out fuse cutout

15kV-27kV Drop-out fuse cutout

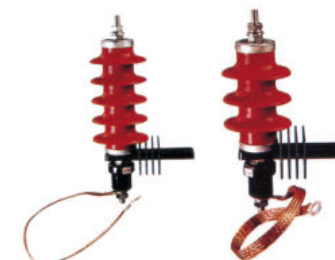

Arrester

10-35kV Polymeric Housed Metal Oxide Arrester With Release

35-110kV Polymeric Housed Metal Oxide Arrester

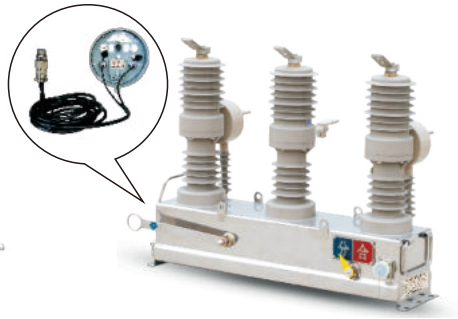

Oxide Arrester With Release

High Voltage Electric

- ◇ Indoor HV vacuum circuit breakers
- ◇ Indoor HV vacuum load switches
- ◇ Indoor HV isolation switches
- ◇ AC LV vacuum contactors
- ◇ Outdoor HV vacuum circuit breakers
- ◇ Outdoor SF6 circuit breaker
- ◇ Operating mechanisms
- ◇ Lightning arrestors
- ◇ Drop-out fuse

ZW 20 intelligent HV vacuum circuit breaker

ZW32 intelligent HV vacuum circuit breaker

VS1 vacuum circuit breaker

Type side-mounted (VBM7) vacuum circuit breaker

Wires and cables

Wires and cables: power cables, low smoke zero (low) halogen flame retardant and fire retardant wires and cables, control cables, mine cables and universal rubber jacket soft cables, JCFD series pre-fabricated branch cables, aerial insulated cables, aluminum stranded conductors and steel core aluminum stranded conductors, polyvinyl chloride insulated wires and electromagnetic wires.

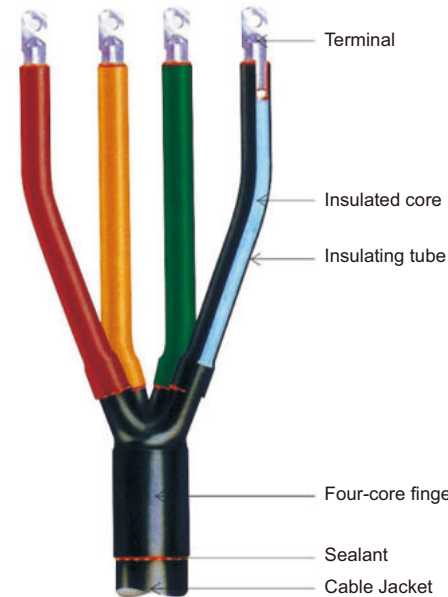

Eco-friendly wires

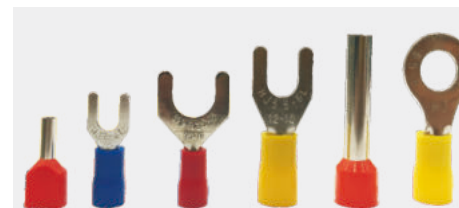

Power cables

Cable accessory

- ◆ Excellent waterproof property
- ◆ Stress control
- ◆ Strong shielding ability
- ◆ Excellent insulation
- ◆ Environmental protection

Insulated Terminal

- ◆ Thick brass
- ◆ Flame retardant insulation
- ◆ Safe and secure
- ◆ Convenient wiring
- ◆ Antiseptic and anti-oxidation

Bring you a new experience...

Science and technology creates the quality, Enthusiasm establishes the future...

Qualifications:

◎ Business entities or natural persons having a certain economic strength have the capability of independently bearing civil liabilities, are registered according to law and have the legal qualification to operate businesses.

◎ Franchisees shall spontaneously protect the brand image, price system and market system of YIFA and must not commit any acts damaging the benefits and interests of YIFA Group.

All relevant own and lease documents of the franchisee shall be complete and legal and meet relevant requirements and conditions for business operation.

◎ The franchisee shall agree to the marketing concept of YIFA franchising system, have the awareness of cultivating and exploiting the market and comply with requirements for market planning layout and terminal construction.

◎ The franchisee shall be ambitious, have sharp market insights and deem investment as long-term career. The franchisee shall strictly abide by contracts, keep credit and proactively protect the Company's brand, trademark and patents.

◎ The franchisee shall be willing to be supervised and managed by the Company and ensure that the product quality and services meet the standards and specifications of YIFA.

Application Procedures:

◎ The franchisee shall negotiate with the Company's franchisee consultation desk for the intention to cooperate with the Company;

◎ The Company shall fax or mail such materials as Investment Attraction by YIFA Group and Form for Intention for Franchising;

◎ The applicant shall fax and mail the completed Form for Intention for Franchising or send the same to the Headquarters through the Company's website;

◎ The Company shall give instructions on the preparation for the franchising;

◎ The Company shall comprehensively evaluate the qualifications for the franchising;

◎ The applicant shall sign the franchising agreement with the Company;

◎ Continuous support and supervision.
