

# ETCSEE<sup>2024</sup>

ENERGY | CENTRAL & SOUTH  
TRADING | EASTERN EUROPE

5-6 June 2024

InterContinental Budapest, Budapest, Hungary

# SHOW REPORT

# ENERGY | CENTRAL & SOUTH TRADING | EASTERN EUROPE

**Energy Trading Central & South Eastern Europe (ETCSEE)** in Budapest was the busiest edition so far, yet it still felt like the annual family reunion we all love so much.

We are thrilled to share with you the facts, figures and highlights that made this conference a truly unforgettable experience.

In the past 23 year, ETCSEE has become the leading industry conference for European Energy Trading. In recent years, not only for Central and South Eastern Europe, but also for traders from beyond. We have big plans for our 24th anniversary and we'd love for you to join us!

# ETCSEE 2024

## A Resounding Success in Budapest

The energy trading community gathered in the vibrant city of Budapest for two days of learning and networking. ETCSEE 2024 welcomed over 650 attendees, 60 knowledgeable speakers, and 45 exhibitors from over 30 countries. Another record breaking event, exceeding customer satisfaction levels, ETCSEE has once again fulfilled on its promise of being THE hub of knowledge exchange, networking, and innovation for energy traders.

” Networking opportunity for the whole Central and South / Eastern European region. All key stakeholders of the industry present. Always organised in nicest places.

Babett Pavlics  
CEO, KELER CCP

## Programme Highlights

A deep dive at the latest CEE and SEE power and gas market trends.

Expert Speakers delivered insightful presentations and participated in dynamic panel discussions addressing crucial topics such as:

- **Power Market Developments and Trends:** Insights into the latest trends shaping the SEE and CEE power markets, including sessions focusing on Market Coupling and Trading opportunities in South Eastern Europe, as well as regional intraday power market developments in the CEE region.
- **Strategic Outlooks:** Strategies for managing Supply and Demand Elasticity in a volatile market, with a focus on regulatory changes, technological advancements, and market dynamics.
- **Geopolitical analyses:** Discussion around the geopolitical developments impacting European power and gas markets.
- **Opportunities for the regional renewables market and on GO market** Discussions on the future for Guarantees of origin and outlooks for the PPAs market and the role of renewables in the electricity market design reforms
- **Gas market Outlooks:** Discussions around how to diversify energy supply routes, the rising LNG market and opportunities in the biomethane market.

## Highlights of ETCSEE 2024

### Dynamic Exhibition Floor

The exhibition area was bustling with activity, featuring 45 exhibitors who showcased the latest products, services, and technologies in the energy trading sector. Attendees had the opportunity to engage with exhibitors, explore cutting-edge solutions, and discover new business opportunities.

“ A fully booked ETCSEE - Energy Trading Central & South Eastern Europe event is one of the places to be for Volue in 2024.

**Klaus Kiske**  
Senior Sales Development Representative  
at Volue

## Highlights of ETCSEE 2024

### Traders Networking Evening

One of the highlights of ETCSEE 2024 was the Traders Networking Evening. The traditional networking event provided a relaxed and informal setting for attendees to unwind, make new connections, and strengthen existing relationships. Filled with engaging conversations, fun, and at a one of the postal card locations of Budapest, the networking evening was a great place to establish a sense of community and collaboration among energy traders.

**” Great place to meet in face with people with who we write emails, speak on the phone, make trades. It is much easier to work with colleagues when you had a great time together - fun, educational and with great experience.**

**Sonia Gueorguieva**  
Head Of Investments And International Projects  
**Mk Brokers Ad**

# Looking Forward

ETCSEE 2024 in Budapest has set a high standard for future events, demonstrating the importance of bringing together industry professionals to share knowledge, discuss challenges, and explore new opportunities. We are grateful to all attendees, speakers, exhibitors, and sponsors who contributed to the success of this event.

ETCSEE 2025 will take place in Vienna. And as we look forward to ETCSEE 2025, we remain committed to providing a premier platform for the energy trading community to connect, learn, and grow. Want to join us in Vienna? Register your interest here.
