

Hand Carry Policy Navy Pier

Exhibitors who have a small item that is physically held can be dropped off at the Navy Pier or park in the parking garage and carry their item to the expo hall. Exhibitors who have freight that needs to be unloaded can go to the loading dock. Texas Xpo will work with each exhibitor and union labor to unload their materials. At the loading dock, each vehicle will have a 30 minute time limit to complete the work. If longer than the allotted 30 minutes is required, the contractor will place exhibitor in a designated space to unload without impeding additional work needs for other exhibitors or freight operations. Texas Xpo will guide vehicles into the marshalling area, and let full time exhibitors unload their vehicle and hand carry, or roll on a non-mechanized cart to their booth space at the below rates. The contractor will stage vehicles as close as possible without impeding work space and emergency egress. If exhibitor needs a forklift or motorized/non-motorized jack service, that would need to be ordered from the contractor at an additional cost. The below rates are based on round trip POV Material Handling.

RATES

Car: \$204.00 per vehicle

Mini-Van: \$215.00 per vehicle

Full Size Van or Large Pick-Up: \$248.00 per vehicle

Check out the Material Handling section of the Texas Xpo kit for more information on:
