An advertising opportunity employing digital ad retargeting

What is ad retargeting?

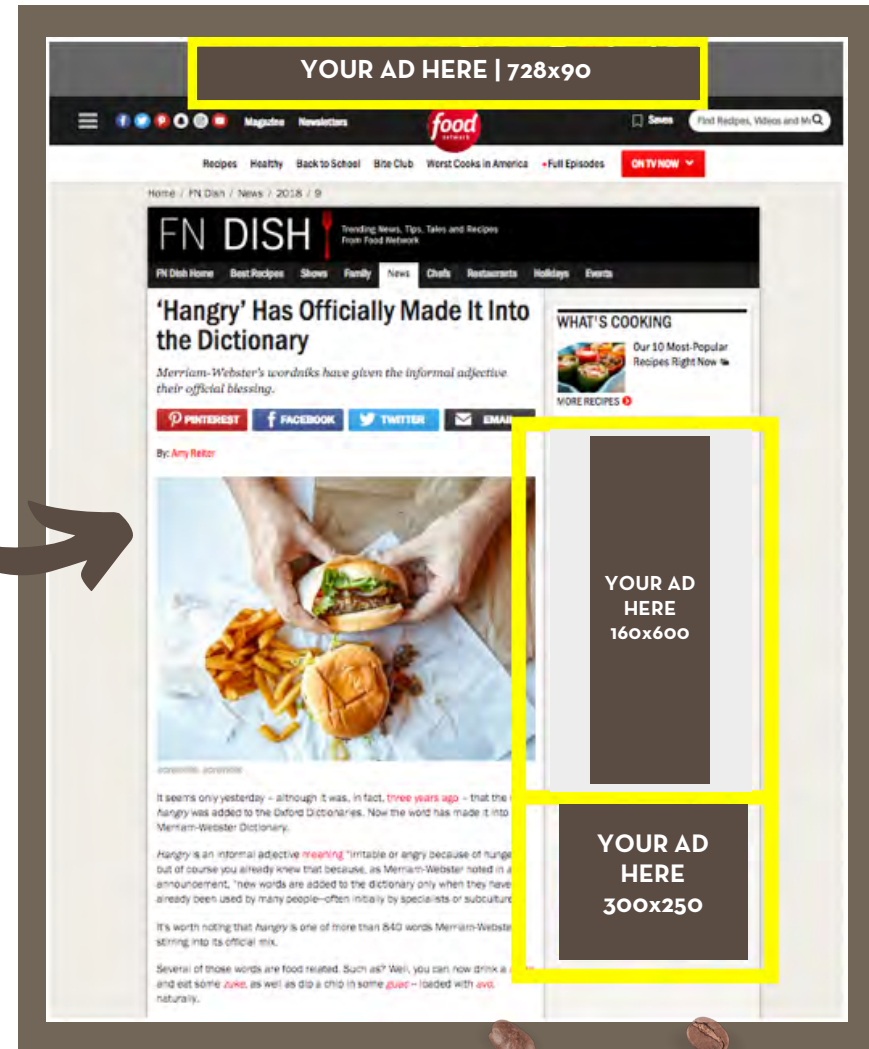

Ever look at a pair of shoes online, or a potential vacation spot, and then for the next couple weeks you notice ads for those same shoes or that same vacation spot seem to be following you around the internet? That's ad retargeting. Retargeting uses cookies to track visitors of one website and then reach those same visitors with ads on other websites, such as looking up recipes on the Food Network or reading the news in The Wall Street Journal.

Why Retargeting?

Our audience becomes your audience with retargeting. Get exclusive direct access to Coffee Fest website visitors and retarget them with your company's ads. Retargeting will showcase your brand, anywhere they visit online.
