

	Digitalizing the Grid Sponsored by (insert Bentley logo) Booth #3571	Grid Edge Technologies Sponsored by (insert Itron logo) Booth #4343	Innovative and Emerging Technologies Sponsored by (insert GE Vernova logo) Booth #432	EV Zone Sponsored by (insert Kraken logo) Booth #3921	City of the Future Sponsored by (insert OATI logo) Booth #2071, Theater 1 Sponsored by (insert Accenture logo)	City of the Future Sponsored by (insert OATI logo) Booth #2071, Theater 2 Sponsored by (insert Verizon logo)	City of the Future Sponsored by (insert OATI logo) Booth #2071, Theater 3 Sponsored by (insert ULC Technologies logo)
Tuesday, February 27th							
10:15am - 10:45am	Utilities Going Digital - A Journey Sponsored by (insert Bentley logo)	Geospatial Climate Analysis to Understand Risks and Opportunities for Grid Resilience Sponsored by (insert PwC logo)	Building Grid Reliability and Resilience - The EV Charging Opportunity For Utilities In The U.S. Sponsored by (insert Driviz logo)	Digital DNA: Synchronizing Molecules to Machines for Battery Energy Storage Sponsored by (insert Accenture logo)			
11:00am - 11:30am	Inertia and System Stability Challenges Due to Increased DER Production Sponsored by (insert Accenture logo)	7 Ways to Get Solar and EV Capacity Values for your Feeders and Substations Sponsored by (insert DNV logo)	A Golden Opportunity: Duguesne Light Company's Journey to Next-Generation AMI Sponsored by (insert Itron logo)	Insights by (insert LTI Mintree logo)	Insights by (insert Salesforce logo)	Preparing the Grid for Tomorrow Sponsored by (insert IBM logo)	
12:00pm - 1:00pm Lunch n' Learn	Infrastructure Intelligence: A Modern Approach to Analysis and Simulation Sponsored by (insert Bentley logo)	Exploring the Value of Distributed Intelligence Use Cases in Advance of Deployment Sponsored by (insert Itron logo)	Enhancing Grid Reliability and Resilience with Grid Edge Intelligence and Orchestration Sponsored by (insert GE Vernova logo)				
1:15pm - 1:45pm	Is Your As-Built Process Ready to Support ADMS and Grid Modernization? Sponsored by (insert Locusview logo)	Gas Metering Enters the Digital World: Implications for Next Gen AMI Sponsored by (insert Landys + Gyr logo)	Error Free Splicing Machine for Medium Voltage Underground Cable Network Sponsored by (insert Prysmian Group logo)	Software for SIF Prevention: How Technology is Transforming the Safety Landscape Sponsored by (insert Urbint logo)	Deploying AMI with Agile in a multi-partnership model using mission critical Networks Sponsored by (insert Verizon logo)	Automating Grid Analytics through Drone Inspection and Computer Vision AI Sponsored by (insert Optelox logo)	
2:00pm - 2:30pm	Is Your Data Ready for the Energy Transition? Addressing Data Readiness for the Modern T&D Utility Sponsored by (insert CGI logo)	Investigating the Detection of Waveform Anomalies in Order to Maintain Grid Stability Sponsored by (insert Itron logo)	Operationalizing Safety Science at Scale Sponsored by (insert Urbint logo)	Feeder Tuning Strategies: Development of Criteria, Plans, and Reviews for Circuits and Substations Sponsored by (insert Power Engineers logo)	Digital Twin for Advanced and Predictive Load Management in Medium and Low Voltage Networks Sponsored by (insert IBM logo)	Insights by (insert Caggemini logo)	
2:45pm - 3:15pm	'Say No' to Patching Causes and Consequences of Running Unpatched Systems Sponsored by (insert Fortinet logo)	Understanding Impacts for Grid Modernization and Reliability Improvements Sponsored by (insert Orbital Engineering logo)	Asset Monitoring & Comms - EDGE Technology Building Blocks of a Holistic Asset Management Solution Sponsored by (insert GE Vernova logo)	Electric Vehicle VPP Lessons From Around The World Sponsored by (insert ev.energy logo)	Path to Condition Based Maintenance via Drone Solutions Sponsored by (insert Skydio logo)	Accelerating a Secure Energy Transition for Utilities Powered by AI Sponsored by (insert Kyndryl logo)	Empowering Smart Cities: Navigating the Future with Edge Intelligence Sponsored by (insert Sensus/Xylem logo)
3:30pm - 4:00pm	Illuminating the Path: Data-Driven Leadership in Utilities Sponsored by (insert Microsoft logo)	Mastering Utility Emergency Preparedness & Response Sponsored by (insert OverIT logo)	Streamlining RCM Studies for Optimal Asset Performance in Energy Infrastructure Sponsored by (insert IBM logo)	Interactive Managed EV Charging Sponsored by (insert Landys + Gyr logo)	Next Generation Network Management Sponsored by (insert SPP Innovations logo)	Safety Scaling BESS: Key Factors for Battery Safety Sponsored by (insert EVLO logo)	Explore the Ultimate Potential of Robotics, AI, and Automation within the Power Sector Sponsored by (insert ULC Technologies logo)
4:15pm - 4:45pm	How Work Gets Done: Innovative Models for Internal Capacity Expansion to Propel Decarbonization Sponsored by (insert 4Liberty logo)	Grid-synchronized, Situationally Aware EVs – Fundamental to Reduce Indirect Emissions Sponsored by (insert Quest Global logo)	Managing Residential Electric Vehicle Charging Across the Distribution Grid Sponsored by (insert Hubbell logo)				
Wednesday, February 28th							
10:15am - 10:45am	Unleash the Power of Data: Use Data-Driven, Advanced MDM Analytics to Manage a 21st-Century Grid Sponsored by (insert Utilismart logo)	Where Am I?—Are Your Meters & Transformers Locationally Aware? Sponsored by (insert Itron logo)	Enhancing Jobsite Safety with Artificial Intelligence Sponsored by (insert Orbital Engineering logo)	Power Quality Effects of EV Charging at the Grid Edge Sponsored by (insert Powerside logo)	Resilient Smart Metering: Navigating Storms and Ensuring Reliability Sponsored by (insert Sensus/Xylem logo)	The Role of Robotics and Automation in Electric Cable End Preparation Sponsored by (insert ULC Technologies logo)	
11:00am - 11:30am	The Customer is King: How National Grid is Harnessing 3rd Party DERs to Actively Manage the Grid Sponsored by (insert Piclo logo)	AAR & DLR Fusion: Enhancing Transmission Grid Capacity Using Optical Fiber Sensing Techniques Sponsored by (insert Prisma Photonics logo)	Unlock the Power of Data: Discover, Govern, and Connect Energy Data for a More Resilient Grid Sponsored by (insert GE Vernova logo)	How to Remove the Queue for Fast DCFC Installation Sponsored by (insert e2 companies logo)	Faster Horses and the Currents of Change: The Vital Role of Utilities in Accelerating eMobility Sponsored by (insert Accenture logo)	Intelligent Lighting Solutions for Smart Cities Sponsored by (insert Verizon logo)	Securing Grid Communications: Unleashing IEC 61850's Routable GOOSE and SV for Grid Resilience Sponsored by (insert Triangle Microworks logo)
12:00pm - 1:00pm Lunch n' Learn	3 Ways to Put Your Grid Data to Use Now Sponsored by (insert Oracle logo)	From Microgrids to "Fractal Grids": The Modernization of DERs Sponsored by (insert Briggs & Stratton logo)	BG&E and DNV: Empowering Grid Reliability - Realtime Cable Monitoring Enabling the Future Grid Sponsored by (insert DNV logo)				
1:15pm - 1:45pm	Navigating SCADA Migration: Best Practices for a Successful ADMS Transition Sponsored by (insert Power Engineers logo)	Embracing a Data-First Approach to Drive Business Value Sponsored by (insert Syniti logo)	Combining the Power of Artificial Intelligence and Human Expertise in Asset Management Sponsored by (insert copperleaf logo)	Revolutionizing Manufacturing with Time Series Data Sponsored by (insert Influxdata logo)	Climate Adaptation Vulnerability Assessment for Utility Assets - a Quantitative Approach. Sponsored by (insert Exponent logo)	Enabling a Clean Energy Future with Data in the Era of AI. Sponsored by (insert Microsoft logo)	
2:00pm - 2:30pm	Utilities Going Digital – From AI and Drones to Achieving Enhanced Outcomes Sponsored by (insert Bentley logo)	Digitalization in the Utility Industry: Integrate, Organize and Visualize Data to Forecast Energy Consumption and Demand Sponsored by (insert Honeywell logo)	Modernizing for the Operational Realities of Utility Vegetation Management Sponsored by (insert Accenture logo)	Trust in Technology: How Utilities Can Earn Customer Trust and Drive Value through Technology Sponsored by (insert Kraken logo)	Fiber without Glass Sponsored by (insert Wesco logo)	The DERMS Strategy: Unlocking the Full Value of DERs Integration Sponsored by (insert Logic 2020 logo)	
2:45pm - 3:15pm	Grid Resiliency Optimization: Unifying Data, Spatial Intelligence, and AI Sponsored by (insert Southwire logo)	Edge Computing and Virtualization for Improved Protection, Automation and Control Sponsored by (insert Gridspertise logo)	Effectively Driving Innovation within a Large Utility Sponsored by (insert Bentley logo)	Rebuilding the Grid from the Ground Up with Transactive DERs Sponsored by (insert Heila Technologies logo)	Insights by (insert HCL logo)		
3:30pm - 4:00pm	PSEG's Strategic Approach to Grid Modernization: Advancing from Condition-based to Predictive Maintenance Sponsored by (insert IBM logo)	Topology Estimation Using an AMI System Sponsored by (insert Hubbell logo)	One Utility's Journey To Transform Vegetation Management Using Satellites and AI Sponsored by (insert AIdash logo)	Insights by (insert Salesforce logo)			
4:15pm - 4:45pm	Meter and More – More than Meters Sponsored by (insert Meters and More logo)	Applying Weather and Climate Risk Analytics to Create More Sustainable and Resilient Grids Sponsored by (insert IBM logo)	Empowering Operators: The Rise of AI Co-Pilots in Control Centers Sponsored by (insert Microsoft logo)	Fault Passage Indicator Use in Underground Distribution Grids – Evolving Needs & Improving Solutions Sponsored by (insert TE Connectivity logo)			
Thursday, February 29th							
10:30am - 11:00am	Substation of the Future: Case Study of Netze BW in Burladingen, Germany Sponsored by (insert Siemens logo)	Insights by (insert Caggemini logo)	Maximizing Economic Value During Your Decarbonization Journey Sponsored by (insert NextEra Analytics logo)				
11:15am - 11:45am	Insights by (insert Schneider logo)		Effectiveness of Wood Pole Condition Assessment Methods Sponsored by (insert Osmose logo)				
12:00pm - 12:30pm			Insights by (insert Maplesoft logo)
