

In March, our industry will gather in Atlanta for DTECH® 2027, and Southern Company and Georgia Power are proud to serve as the host utilities. We look forward to welcoming you to the Georgia World Congress Center, March 1-4.

Our industry is at a defining moment, investing to support growth and modernize the grid while staying focused on the fundamentals our customers count on every day: reliability and affordability. How utilities deploy innovative strategies and next-generation tools to meet this moment will look different, and DTECH is the perfect place to share best practices and insights.

Georgia is a fitting backdrop for these conversations. Innovation, collaboration and leadership have long shaped our state's energy story, and I'm proud that DTECH will give Southern Company and Georgia Power an opportunity to share the important work our teams are advancing across the region.

Here is a preview of what you can expect in Atlanta:

A practical technical program: Hundreds of practitioner-focused sessions will cover topics ranging from AI applications and affordability to grid reliability. Explore the full program.

Perspectives from industry leaders: The opening keynote panel will bring together leaders from Southern Company, Dominion Energy and Baltimore Gas & Electric to discuss how utilities are responding to rapid growth. The conversation will set the stage for insights shared throughout the event. Learn more about the opening keynote.

Behind-the-scenes facility tours: You'll have the opportunity to tour regional grid infrastructure, including a transmission control center, a microgrid installation and Georgia Power's Living Microgrid Lab at Tech Square. Explore the available tours.

New industry summits: Two focused tracks will connect leaders and technical experts around data centers and wildfire mitigation. Learn more about the Data Center Leadership Summit and the Wildfire & Resiliency Strategy Summit.

This is only a glimpse of what DTECH 2027 will offer.

Register now to join Southern Company, Georgia Power and energy leaders from across the industry in Atlanta. For questions, please contact the DTECH team.

We look forward to welcoming you in March.

Kim Greene
Chairman, President and CEO, Georgia Power
