AIR LINE RESPONSIBILITIES Edlen is not responsible for moisture, oil or water in air lines, loss of flow or drop or increase in pressure in line to equipment. Exhibitor should supply their own filters, driers or other equipment as needed. No compressors are allowed other than those supplied by Edlen unless they are a fixed part of your machine. If 24 hour air is needed please call for a quote. WATER PRESSURE Pressure may vary. No guarantee can be made to minimum or maximum pressures. If pressure is critical the exhibitor should arrange to have a pressure regulator valve or pump installed. Edlen is not responsible for sediment, color or taste of water.		There is a minimum labor charge of 2 hour for delivery and 1 hour for removal of each air, water and drain outlet.																															
WASTE WATER If waste water from your drain contains hazardous materials, chemicals or metals, Edlen cannot drain it.		When do you move-in? When do you move-out? Take this into consideration when pre-paying estimated labor cost for delivery and removal of air, water & drain outlets.
