  - b Government House (C1) and Victoria Square (C3)
  - c Adelaide Station (B1) and Central Market (C3)
- 4
  - a Jean comes to Adelaide to visit her sick friend Glenda in hospital. She arrives at the Bus Depot and walks to Royal Adelaide Hospital via Franklin St, Flinders St and Frome St. How far does she walk?
  - b After visiting Glenda she walks to her hotel on the corner of Wakefield St and East Terrace. How far is this?
  - c Later in the day Jean walks to the Central Market from her hotel to purchase some food and flowers. She returns to her hotel to drop off the food and then takes the flowers to Glenda in hospital. After visiting Glenda, she walks down to look at Government House and then returns to her hotel. How far did she walk?
  - d If Glenda's average walking speed is 4 km/h, how long has she spent walking on this day?
