# Behind the embroidery...

I am lucky enough to have worked with the same team of skilled local craftswomen for over 17 years, bringing my designs to life in fabric and stitch. The human touch can be felt in each piece and is what makes the products truly special.

A few years ago, I began transforming my embroidered designs into print and my range of quirky fabrics is hand made into purses, pencil cases and other cute accessories. This year's new fabric is the Swallows which perfectly captures the beauty of these special birds.

I've also created an heirloom collection for the Coronation of Charles III and Queen Camilla with a beautifully handmade tea cosy, an organic cotton tea towel and a delicate bone-china mug, perfect mementos of a unique occasion.

## Bespoke Ranges

We've been lucky enough over the years to collaborate with some wonderful customers to create unique, bespoke collections. Ranging from our extra special embroidered products to bespoke fabrics, mugs, coasters, tea towels, magnets and even Christmas decorations!

Each bespoke project is as individual as the customers we work with, so the process varies according to your needs. Once we've established some main themes and a colour palette (the best bit!) Poppy begins sketching out ideas to put together a design sheet and we take things from there.

We've found customers love the variety of products we can produce and the uniqueness of a design created just for you!

# Ordering

If you're a new stockist we'll need to make sure we don't stock anybody nearby as when you are a Poppy Treffry stockist you get exclusivity for your area.

Please visit our wholesale website to order or apply for an account.

You can also email or telephone us with any queries:  
tamsin@poppytreffry.co.uk
