

MY DORIS

HIGH SUMMER '23 | *BACK TO BLOOM*

Here comes the sun, and with it, our new collection presented with colour (it's sweet this season) and form (we continue to collaborate with a growing network of super-talented artisans). It's a carefully edited capsule of earrings, necklaces, bracelets, and rings – all ready to bloom in your shops and spaces.

Our mantra is to have fun with design – this means the opportunity for creativity is never-ending. Discover playful fruits and 3D florals - some delicate, others bold. Colourful gems, chunky chains and oversized earrings. We bring the Flower Power past to the present and haven't shied away from standing out.

Fast-rising model @Annabella_King fronted this campaign and raised the bar – she danced in Doris, and her super-sized smile reminded us: it's a season to relax - let your hair down.

Soak it all up. And remember, you'll find lots more online.
