

BERSERKS GLASS

HAND CRAFTED IN DEVON

A wild profusion of magical fusion and colours colliding

Let's step inside...

Berserks Glass

So much more than Handmade

Our Berserks Glass Studio is in an old barn on the edge of Dartmoor, here, as two best friends and partners in life, we have a drive and passion for creativity and simplicity in all things important – we are truly heartfelt makers, it gets us up in the morning and keeps us smiling. By constantly experimenting with different kiln times, temperatures, mediums, textures and glorious colour, added to liberal amounts of new discovery, eccentricity and laughter, unique pieces fused with the magic of handmade, the essence of Devon and our passion for all things glass emerge on a daily basis.

...and Yes! ... yes we really do make everything in our bijoux barn, from here, for well over a decade, we have been supplying 100's of shops, galleries and garden centres across the UK and further afield, with award winning, handcrafted fused glass gifts and accessories for the home.

Fuelled by imagination, individuality and maverick tendencies, we strive to fuse together a chilled-out creative vibe, small enough to care and be adaptable for your particular needs, but established, knowledgeable and professional enough to trade with efficiency and credibility that you can always rely on.

Award winners in Gift of the Year by the Giftware Association twice and chosen by The Independent with one of the best 50 Gift Ideas, we've got great designs in best sellers year on year sorted.

Our contemporary glass enhances Coastal, Country and Urban settings, as thoughtful gifts, interior statement pieces and holiday mementos. Now, at the top of our game, Berserks Glass is one of the most popular and successful wholesale fused glass suppliers in the UK.
