Bronte by Moon. Beautiful woollen accessories created in Yorkshire, England.

Timeless British designs created within one of Britain's rare vertical woollen mills - Abraham Moon.

Our extensive range fuses contemporary and classic design while incorporating beautiful colourations, often inspired by the beauty of the British landscape.

We create each of our throws to the highest quality from natural fibres across collections of Merino, Shetland-type and Mohair Wool.

From the town to the country to the coast, Bronte by Moon has an accessory that fits any household or occasion.

Need Inspiration?

To help support the creative decisions of our valued customers, we have created a style guide, in which you will find some of our favourite combinations.

Whether this gives you a little inspiration to influence your own choices, or if you'd like to explore pre-made styles - please speak to a member of our team who can help to build your colour story.

Merino Wool

Merino wool is one of the most sought-after wool fibre types - often compared to the opulent softness of cashmere and silk.

Available in a multitude of aesthetically pleasing designs and colourways.

120cm x 190cm (W x L)

Mohair

As one of the oldest textile fibres still in use, Mohair has gained a reputation as the “Diamond fibre” – coined due to the unique natural sheen of the Angora’s fleece, unseen in any other species.

Highly sought after for their whisper-soft handle, our Mohair throws are a perfect decorative piece for home interiors, available in a beautiful array of rich and muted colourways.

Behind the Blend – The story of Moon.

Established in 1837 - with over 185 years of proud British manufacturing and design heritage to our name - we are experts in producing woollen cloth of unrivalled character and quality.

The Moon mill is a vertical mill - a term referring to mills built in the Victorian era, which would rise several stories, with each floor containing part of the manufacturing process. Today, it remains a unique confirmation of our authenticity - offering unchallenged control over every production stage, from raw wool entering our mill to applying the final finish to the product.

We create our collections by fusing innovative design and traditional craftsmanship - offering styles that cater to both contemporary and classic tastes.

Our passion for championing our craft remains as strong now as ever, conveying what it truly means to be 'Made in Great Britain'.
