

At Dunked we love biscuits. Not just eating them, but the design of them too.

From the small town of Frome in Somerset, made famous for its independent maker community, Matt Rees brings you 'DUNKED' - bringing to the table a range of timeless designs that will never go stale.

DUNKED's gift range includes iconic biscuit favourites available as magnets, key rings, badges, decorations and now jewellery.

Each one has been lovingly assembled and finished by hand in either plywood or walnut with the addition of an acrylic centre.

As a professional model maker Matt has made scale versions of architecture and design throughout his career and one day he had the great idea of making a model biscuit!

That first biscuit was the iconic Custard Cream and now the range extends to the Bourbon, Jammy Dodger, Pink Wafer and now Iced Gems and Party Rings.

Matt makes each biscuit in his Dunked workshop in Frome and, however quirky and fun, he makes each one with care and attention to detail.

Individually laser-cut, cast, assembled and finished by hand, DUNKED's beautiful designs make the perfect accessory for you and your home.
