I'm Sarah and I run my business from my home studio in Aberdeen. I have been creating watercolour art with a strong island influence since 2017.

The business started kind of by accident when I painted my first watercolour map which was of my home, The Shetland Isles. I went on to paint several more colourways before selling these as prints - to friends first, then friend's of friends and finally through local gift shops in Lerwick, Shetland.

Since then I have created a full range of watercolour map prints as well as home and gift products which I hope you enjoy looking through. All of these designs are inspired by Scotland, with many of the beautiful islands featured heavily, as I believe they have a captivating charm, stealing the hearts of many.

Introducing...

Sea Treasures

I used to spend a lot of time collecting shells and beach treasure and this collection has been inspired by those coastal walks. Scotland is the proud owner of some of the best beaches in the world and I wanted to create a collection that reflected some of the beautiful things that you can find on them. My favourites are the 'Scabby Man's Heads/Heids' - the Shetland term for Sea Urchins - they have the most stunning subtle colours.

The design was created using fine liner pens, layers of watercolour and posca paint pens. I then designed the repeat pattern digitally.

Products currently available in this design include oven gloves, aprons, tea towels, cosmetic bags, snack trays, coasters, chopping boards, greetings cards, postcards, gift wrap, A4 Prints & 4x4 Prints

Introducing...

Heather & Honey

Following the success of my best-selling "Wildflowers" collection I wanted to design another floral range inspired by Scottish wildlife. I've always loved the purple heather that covers the Scottish hills in late summer and felt inspired to create a collection to reflect this time of year. This design was created using my favourite medium, watercolour, to highlight the purple of the heather and fine liner pens to bring out the detail of the bees.

Products currently available in this design include tea towels, aprons, oven gloves, greetings cards, 4x4 prints and snack trays.

Scottish Whisky

A white apron with a collection of Scotch Whisky bottle illustrations and labels, hanging on a wall. The labels include 'Argenteus', 'Belovian', 'Sourmash', 'Belovian Glenfiddich', 'Jura', 'Black & White', 'Black & White', and 'Scottish Whisky'. To the left, a wooden chair holds a white pitcher with dried flowers and a glass of whisky.

Scotland Map

The background is a soft-focus collage of artistic elements. It features vibrant watercolor splashes in shades of blue, green, yellow, orange, and red. A gift wrapped in white paper with a colorful floral pattern is tied with a red string. Several dried, purple thistle-like flowers are scattered across the scene. A white circular overlay is centered in the image, containing the text 'Available Products' in a black script font.

Bespoke Design

If you are thinking about something more bespoke, I have created bespoke work for a range of different businesses. It works particularly well with you map artwork as I can create a design specific to wherever you are based, ideal for tourist hotspots! Below are some examples of bespoke work I created this year.

How does it work?

1. I ask for a minimum order value of £400.
2. Lead time is around 8-10 weeks to allow time for the design process as well as manufacturing.
3. You can order the design on whichever products suit your business, you do not need to order my full range.

4. A design fee may apply depending on the work involved.

Above: Bespoke project for Lochness by Jacobite

To the right: A bespoke project for Colonsay Beverages, colours inspired by their Wild Isle Gin bottle artwork.
