For the beginner puzzler, or the pro looking for a new challenge

With remarkably simple design, the Pyraminx Duo might seem one-dimensional. But this puzzle has a double-solution: first, solve by bringing each color to one side; now, can you do it again...but in just four twists?

HUZZLE CAST RING

This puzzle is based on an original called the "Puzzle Ring". Popularized in 15th century Europe, this ring style was actually used for official engagement and marriage rings. Christian reformist, Martin Luther, was even known to wear one. It is also rumored to prove as evidence of its wearer's adultery...when it comes apart into pieces. That's quite a history contained in this little puzzle.

HUZZLE CAST AMOUR

A masterpiece by metal smith Akio Yamamoto, the key word for this puzzle is "love". The two separate, linked loops make this puzzle extremely challenging. HUZZLE CAST LABY

At the end of the 19th century, Britain experienced a huge puzzle craze. I managed to pick up a number of the puzzles famous during that period in flea markets, despite their rarity. This is one that we have successfully revived in its new form. The key point of this puzzle is decisively navigating its labyrinth, in which exists one point of weakness for you to break through. For the indecisive part of you.

HUZZLE CAST MARBLE

This puzzle has such a beautiful shape that it could easily be mistaken for a piece of jewelry. Its surface features extremely unusual cuts; actually, this marble is a puzzle that can be broken up into 4 pieces. This advanced design is the creation of Bram & Oskar. If you succeed in breaking up the marble, carefully examine the surface of the sections of each piece. The theme of this puzzle is "Sphere".

HUZZLE CAST PADLOCK

The design is evocative of a study padlock. Just pick it up and you'll quickly gain an appreciation for the challenge that lies ahead – this puzzle will not open easily! The interior is comprised of two elliptical pieces, locked together tightly around the circular pieces and obstinately refusing to be released. But don't give up! Repeatedly separate and then put them back together and prove you have what it takes to unlock this riddle. The theme is "obstinacy". Designed by Korean designer JinHoo Ahn.

HUZZLE CAST EQUA

We have created a puzzle that takes on a ball-like shape of an astronomical model composed of a planet and a surrounding ring. The planet positioned tightly inside the ring looks as if it cannot be taken out, and all you can do with it is rotate it on its axis. Or is this really the case?

The theme of the puzzle is "heaven", made by Oskar of The Netherlands.

HUZZLE CAST NEWS

I came up with the idea for this puzzle when I was 19 years old. It just came to me during a stroll home in the snow, truly a creation of my youth. Unfortunately, saying anything here about its construction would give away how to solve it. I certainly can't disappoint the fans that have come to expect frustratingly difficult puzzles from me. Besides, the fans that refuse to accept any kind of hint are those who make me the happiest! The key word is "needle".

HUZZLE CAST ENIGMA

Patented in America in 1975, the somewhat swirled pieces of this puzzle by Eldon Vaughn must be disjoined and then put back together.

I once found a smaller version of this puzzle about twenty years ago in America, but considered it impossible to solve at the time. We have made a new version maintaining the difficulty of the original and licensed it for the Cast Puzzle series.

This is without a doubt among the most difficult of all puzzles. The key word is "twist". Don't use too much force, the pieces should just slide apart.
