EMBARK ON
OUR JOURNEY

Welcome to the My Flame Lifestyle Spring Summer 2024 Catalogue!

Embark on a journey of sensory delight and sustainable indulgence as we unveil the latest chapter in the My Flame Lifestyle saga. Specializing in organic candles and gifts for every cherished moment, our brand is synonymous with quality, innovation, and a commitment to eco-conscious living.

This season, we invite you to immerse yourself in the essence of Spring and Summer with our extensive collection of scented soy candles, reed diffusers, soaps, and the irresistible touch of our colorful matches, housed in a sustainable jar. At My Flame Lifestyle, we believe in enhancing your everyday experiences through thoughtful, natural creations.

Breaking new ground, we are proud to introduce an exciting addition to our lineup: a captivating collection of vegan lip balm and hand cream, elegantly displayed in a super cool carousel. Immerse yourself in the luscious goodness of our cruelty-free formulations, designed to pamper your senses while embracing the beauty of sustainability.

This season, witness the magic as we introduce wish-bracelets nestled inside the gift box of our organic candles. The receiver not only indulges in the warmth of a beautifully crafted candle but also discovers a wish-bracelet within. When worn, these bracelets transform into tokens of hope, allowing the wearer to make a wish. As the bracelet gracefully falls away, the wish is destined to come true, adding a touch of enchantment to every My Flame Lifestyle experience.

Also this year, we have broadened our outdoor candles collection with a whole new range, together with other new candles which are shown throughout this catalogue.

At My Flame Lifestyle, our commitment to a better world shines brighter than ever. Our ongoing collaboration with RTRS (Roundtable for Responsible Soy Association) reflects our dedication to sustainable practices, ensuring that every flame burns conscientiously. Furthermore, our partnership with Amnesty International underlines our belief in a world built on equality, justice, and human rights.

Join us on this journey of sustainability, innovation, and heartfelt moments. My Flame Lifestyle is not just a brand; it's a lifestyle, a celebration of nature's bounty and the joy that comes from sharing it with others.

Cheers!

AND TO SEND YOU HOPE

SOY CANDLES

We love the soft touch of soy wax and its organic properties. As it's all plant wax, thus vegan, they hardly spread any soot, they burn up to 45% longer compared to regular candles and they have a better scent throw due to their lower burning point. We would also like to share a fun fact; when the candle has burned for a little while, you can use the liquid wax as hand cream for dry hands. You can blow out the candle and pour the wax right into your hands. Massage the wax into your hands et voila, you have a great moisturizer for the day. Additionally, soy candles are better for the environment as they're made of soy beans instead of crude oil. Our soy beans come from RTRS certified plantations (more information on page 63) for which no rain forests are harmed and the beans are non-GMO. These candles are a must-have in every home.

Inside these candles, one can find a bear as a token for a hug. The receiver can easily pull the bear out of the wax and carry it with them or put it in a special place. Every time they see it, they will be reminded the giver thinks of them.

These matches are environmentally friendly and don't contain sulfur but an iron-phosphorus compound. Additionally, matches are easily recyclable and biodegradable. RECYCLE

Recycling and repurposing have become vital practices in our modern world, aiming to reduce waste, conserve resources, and contribute to a more sustainable future. Among the many creative ways to give new life to everyday items, repurposing our candle containers, soap and match bottles, and reed diffusers for decorative and functional purposes stands out as a delightful and environmentally conscious endeavor.

Why let a fun jar or bottle go to waste? Reuse our bottles as a vase for (dried) flowers or beautiful feathers. Or use an empty candle jar for storing your pens or make-up brushes. But also think of using it for serving nuts and olives in it. Or what are your thoughts on this Champagne coupe used as a glass for a festive dessert?

Join our movement!

Founded in 2006 in Zürich, Switzerland, the RTRS (Round Table on Responsible Soy Association) is a non-profit organization that promotes cooperation between producers, suppliers, manufacturers, retailers, financial institutions, civil society organizations and other relevant actors. Its aim is not only sustainability of soy production itself throughout the world but also on social levels. In this respect, it follows the principles of:

Legal compliance and good business practices

Responsible labor conditions

Responsible community relations

Environmental responsibility, no deforestation

Good agricultural practices

My Flame Lifestyle is the first Dutch candle brand that's a member of RTRS and we encourage other brands to follow our footsteps. The soy we use for our candles comes entirely from an RTRS certified producer.

SOAP

Fizz away with our new Chill Pills! These bath bombs look like a huge vitamin pill. Throw in 1, 2 or 3 pills if you're in a wild mood, for an explosion of fizz in your bath. It's fun, relaxing and your skin feels amazingly soft afterwards.

Run a hot bath or foot soak and spa-away with our natural Dead Sea salt crystals. Either as a small gift in a fun jar or a luxury spa kit with a soothing scented soy candle included.

It looks fun and it's fun to use. Our soap confetti in a glass jar smells delicious, just like our candles. It contains organic glycerine for hydration and Zea Mays constarch exfoliates to remove dead skin from the surface and reveal a clean, smooth skin. Last but not least, it contains BHT which acts as an antioxidant. You simply take 1 or 2 confetti's, wet your hands and rub until the confetti is (almost) dissolved. It leaves your dry hands silky soft. And another fun aspect; kids love to wash their hands this way!

Spice up your kitchen or bathroom sink with our liquid hand soap. It comes in sustainable glass bottles, carrying our fun quotes. This vegan soap is very soft for your hands because of the added aloe vera with its anti-aging, hydrating and natural exfoliating properties.

- BATH BOMBS -

Take some well-deserved me time with these 16 fizzy chill pills.

How to use:
Fill your bath with warm water, drop the pill in and enjoy the show! Your skin feels silky soft afterwards.
