Luxury home fragrance products
Hand poured in the Orkney Islands

Welcome to Moonshine

You're never far away from a moment of calm in Orkney, surrounded by crashing waves and stunning sunsets, easing the mind of everyday issues.

Moonshine candles embody the magic and relaxation of this - wherever you are - for our own moments of calm, with original scents inspired by home.

Our highly scented, mood-boosting candles allow you to slow down, filling your homes with gorgeous scents that evoke wonderful memories.

Hand poured by Catherine

All candles are hand poured in small batches to ensure the highest quality, by Catherine, who started candle making as a lockdown hobby turned passion.

Re-inspired by moving back home to the Orkney Islands from university in Edinburgh, she developed scents that reflected the relaxation of island living, inspired by the sea, quiet spots, and the clear starry nights that her northerly home provides.
