**Fully recyclable packaging has been a focus that we have proudly sustained since the business launched. When glass or kraft card has not been a viable option we have opted for PET recyclable bottles for the Refills and a sugarcane plastic alternative for our Soaps & Lotions!**

**The full product range from Ivy & Twine is vegan, cruelty free and paraben free. As makers we endeavour to create high quality home fragrance products that are kind to the planet, at a reasonable price point.**

**Our Candles are made using a Soy-Coconut wax and Ivy Melts using 100% Soy wax. Both are ethically sourced, vegan, and free from paraffin meaning a cleaner, longer burn. They are also fully biodegradable.**

**Fragrances are carefully selected and tested, using only high quality oils free from parabens and phthalates. We also use a much higher concentrate than the industry standard to ensure a strong scent throw.**

**Orders are packed using paper void filler and paper tape. We will only use bubble wrap to repurpose if we have received supplies with it!**

**Carbon emissions are always offset, as standard, for all orders we send out.**
