

About Us

Since launching in 2017, KimmyB® has been committed to making sustainable choices from end-to-end. This is reflected not only in our products, but in our culture - it's what we stand for.

Our products are made by hand in small batches in our workshop in Sussex, England. Our candles are made from 100% eco-soy wax and have pure cotton wicks. We avoid dyes and instead embrace the natural variance in shade. Our careful approach results in a clean burning, vegan friendly product with a delicate scent.

We're so excited to be launching our new Fragrance Flower Diffuser. The eco-friendly mineral base combines perfectly with our carefully selected fragrance oils and the Flower Diffuser is made from sola wood, a sustainable source. The porous nature of the wood makes a perfect alternative to reed sticks and a beautiful addition to your home.

In 2021 KimmyB® partnered with **Ecologi** and **Planet** (via Shopify) to offset our carbon emissions and help fund innovative worldwide conservation projects. Please visit our website for more details.

"Our products are made to sit in harmony with your life, enhancing your mood and elevating your everyday" ~
