

Oli Olsen

2024 GIFT CATALOGUE

Oli Olsen

Launched in 2016, with a view to bring our customers the most trend-driven products from around the world. We specialise in unique design-led gifts & homeware and work with some amazing forward-thinking quality brands.

Welcome to our 2024 Gift Catalogue where you will find a curated collection of gifts for all ages and every occasion. This year, we are excited to continue to expand our range of keyrings as well as introducing several new Dthink LED Night Light characters. We have some amazing new merchandising display options including our new floor spinner from Metalmorphose.

We are also delighted to continue our expansion of products from our latest brand partners, The Gift Label Amsterdam and Helio Ferretti. Please contact us for a copy of their latest catalogues.

This year we will be exhibiting at The Spring Fair in Birmingham and Home & Gift in Harrogate. We will be showcasing all our latest collections for you to see face to face. As always we make life easier, giving you access to 8 brands under one roof.

We wish all our customers a prosperous 2024 and look forward to continuing to work with you throughout the year.

OUR AMAZING BRANDS:

Lifestyle & Accessories

Our lifestyle and accessory collections make the perfect gifts. From our brand partners Metalmorphose and Sliwils, you will find the largest selection of luxury 3D keyings, bag charms and fashion laces - the latest fashion accessory. Don't forget we also have some amazing in-store display options to showcase our collections.

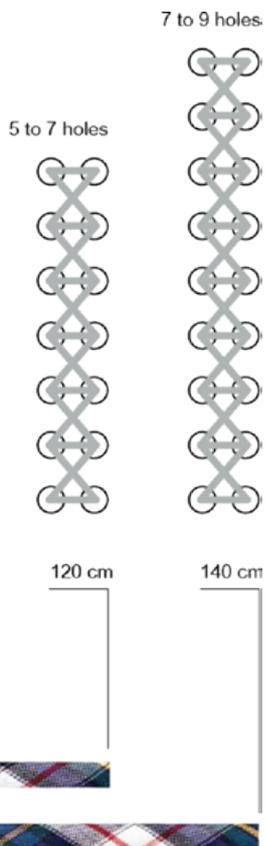

sliwils

The answer is obvious, sliwils was born to fulfil a function that goes beyond tying shoes. The philosophy behind it is to give colour, to personalise, to adapt to fashion trends, to be different, to have fun, to exchange and apply infinite ideas that we may have to be unique.

It is a cord that starts from a manufactured fabric, which means that almost any fabric can become the basis for your Sliwils. This opens a whole world of possibilities to create shoelaces, we can turn a simple shoelace into a whole universe of colour and fashion.

Sliwils are much more than shoelaces and in fact their possible applications go beyond what could be considered their "normal" use. But, apart from its function, sliwils is a technologically revolutionary product. It is a tubular article made of bias woven fabric, a product that the company knows and manufactures to perfection, filled with twisted fibres and finished with a metal terminal to close the ends. The result is an incredibly resistant cord which, thanks to being made mainly from fabric, allows for an incredible range of patterns.

size guide

120cm:

Ideal for shoes & trainers (5-7 holes)

140cm:

Ideal for boots & high tops (7-9 holes)

technology

Sliwils are created on the bias, a type of cut that gives them much more resistance and elasticity than expected in normal laces.

In addition, the designs are achieved without stamping or dyeing the cord, but by twisting the fibers themselves.

The result is tubular shoelaces with metal heads, capable of withstanding your daily rhythm and offering you almost infinite possibilities.

Small things become BIG when they're made with passion. The Metalmorphose Collection brings everyone's favourite item in a scaled-down yet detailed version. From sketches on paper, to 3D printing, molding and finally die casting.

The Metalmorphose Collection is a full catalogue of products to help make any occasion special. There are keyrings, bookmarks, fashion pins and bag charms with lots of different styles and characters for you to choose and love.

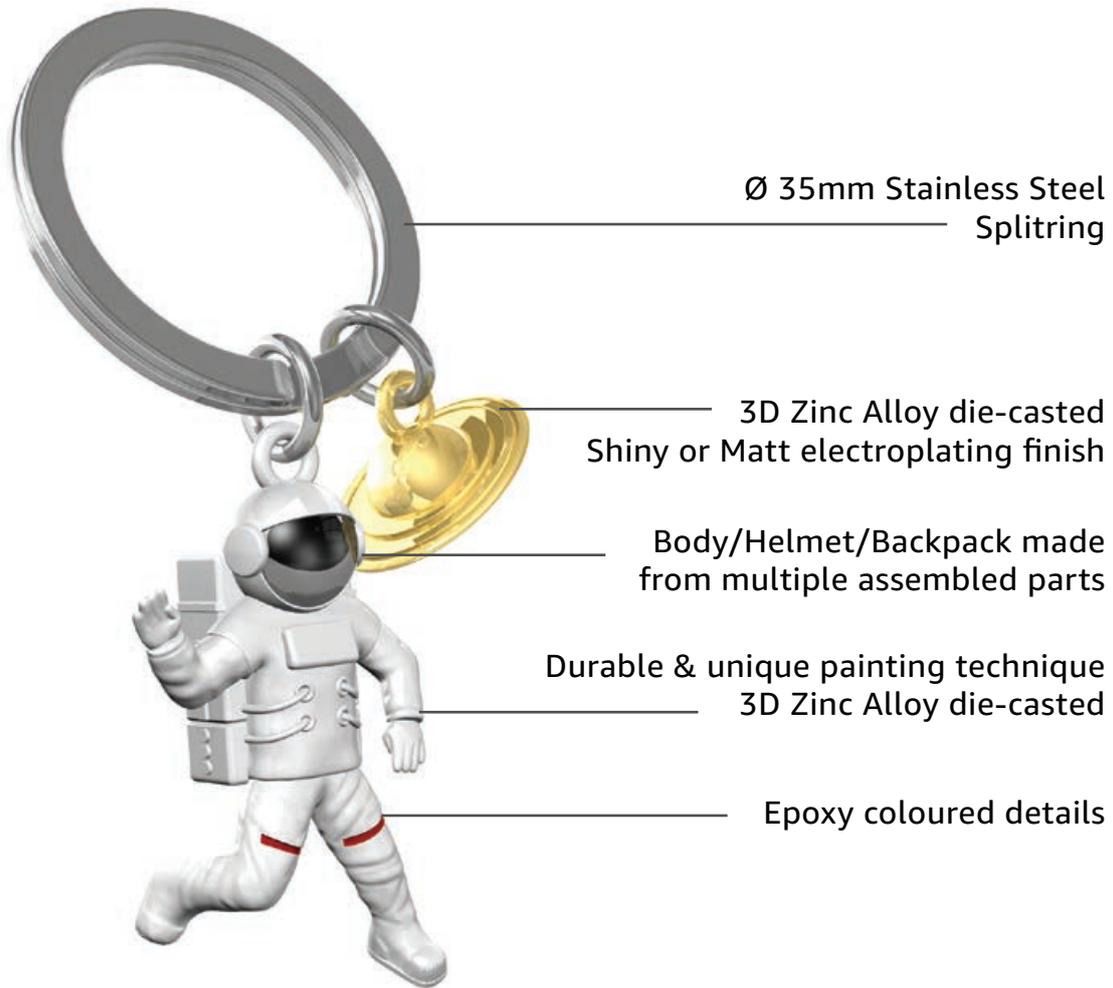

Happily designed in Belgium, proudly created in Hong Kong. Metalmorphose creates a mini world with the things you love from the big world with carefully created keyrings, bookmarks and pins. Ready to show your personality and take it everywhere you go?

From sketches on paper, to 3D printing, molding and finally die casting: it's a joy to see our designs come to life.

What They Don't Teach You at Harvard Business School

Compare notes with your boss. What does he think you are doing here, and what do others think you are doing here? Once you can agree on the 'givens', you will be less shocked by the assumptions

Don't Go One-By-One With The Boss

If you win the battle you're probably going to lose the war. And the more right you are, the more damage it will probably do in the long run.

We had a situation several years ago where one of our employees got into a heated exchange with his boss. One thing led to another and he was asked to resign.

This was a very unfortunate situation, and the employee asked to see me because he felt that since I knew all the circumstances of the dispute I might be willing to prevail upon his boss to let him stay. I told the employee that I would be happy to do anything I could do to generate his boss's support because my large management structure of the company might be able to help.

Get

Home & Kids

Our home & kids collections are growing with the introduction of Flow Amsterdam to our family of brands. This year we are delighted to expand our LED lights from Dink and don't forget to check out our best selling remote control cars from KIDYWOLF - these are great for growing kids!

Dhink designs believe that children's (or grown-up kids) imaginations should be translated as vividly as possible. A passion to create products with a mix of functionality, emotion and brain teasing design - growing up is optional!

The product line is created through the inspiration of both "in house" design teams and designers worldwide. This variety of creative thinking results in a collection that spans multiple cultures and stimulates people to be open minded.

Dhink design brand was established in 2007, brought to life by a creative Belgian design team, with years of experience in smart design & consumer products. DHINK products not only stir up positive emotions but also put a smile on the face of the daily users.

flow

AMSTERDAM

Flow Amsterdam is a Dutch brand that designs products which give new parents the rest and harmony in those early years. As young parents they know that having a baby is the most special experience but also comes with its own challenges.

Flow Amsterdam wants to create a more fun and easy life for parents and their children. They dream of bringing harmony, simplicity and happiness in to the lives of young children and their parents by creating meaningful products.

Flow Amsterdam loves creating happy products for kids, making life easier and more fun. Having children is very special and they deserve only the best. With their products they want to give them the safety, love and trust they need to grow up. Their products come from an honest work environment, are sustainable and of high quality, because they want you and the rest of the world to have a lifelong smile on your face.

KIDYWOLF

KIDYWOLF was founded in 2019 by 3 young dads who wished to change the toy industry. They had an aim to encourage children's physical, mental, social and emotional development with their design led, fun toys, gadgets and homeware.

The designers take care to carefully evaluate the needs and desires of your children, to offer a range of harmless but resistant, aesthetic objects. Many important notions are integrated through play when growing up. These core are what make Kidywolf so innovative.

Family, sharing, conviviality are important values that we wish to spread within the homes of our KIDYLOVERS because they give meaning to our daily lives. Many important notions are integrated through play during growth. Our goal is not just to occupy and entertain children. KIDYWOLF wishes to encourage their physical, mental, social and emotional development.

KIDY HEADPHONES

The KIDYEARS headset will be an ideal companion for travel, relaxation and all forms of audio learning. Thanks to its wired connectivity, the headset does not broadcast any waves to the children. With their magnetic ears, children will be able to play by customising their headphones.

SPECIFICATIONS:

Sound Limitation: The KIDYEARS are limited to 85dB to protect little eardrums

Dual Jack Wire: The headset has two 3.5mm jack inputs/outputs so you can share sounds with friends

Customisation: Fun removable magnetic ears to personalise your headphones

KIDY NIGHT LIGHTS

The KIDYNIGHT LIGHTS are equipped with 'touch' function, which allows you to choose your mode of light. Silicone based, the KIDYNIGHT LIGHT is soft and flexible to the touch, which will allow children to easily play without hurting themselves.

SPECIFICATIONS:

Soft Material: The KIDYNIGHT LIGHT is made from silicone which has a soft, supple touch

Colour Changing: Diffuses 2 different intensities of white as well as a rainbow of colours. Choose your favourite or watch the slideshow of colours

Rechargeable: Quickly charge the light via USB cable and continuous use after 12 hours

Easy Washing: You can easily remove the silicone body from the light to wash it in your dishwasher
