# GROOVY THINGS<sup>CO</sup>

Groovy Things Co is a family owned and operated company founded in 2019 by Beth, Blake and Zach Welch. The company started in the garage at the Welch family house, until they quickly ran out of space and found a warehouse / office space in Frisco Texas that they now call home.

Their goal is to spread happiness and encourage people to express themselves through the products they create.

**We are super excited to be their official UK distributor!**

Groovy Things socks are made with soft combed cotton for superior softness.

Cotton is our main ingredient, all of their socks have between 43 - 60% cotton.

They add nylon and polyester for strength and durability so you can wear them longer, and just a bit of spandex for the perfect amount of stretch.
