

ASH + EMBER

AROMATHERAPY HOME FRAGRANCE

WHOLESALE CATALOGUE

OUR STORY + FOUNDER

WINNER OF

**BEST LUXURY CANDLE
BRAND 2024**

Thank you for taking the time to learn more about Ash + Ember. We are a UK-based luxury home fragrance brand founded in 2021. Ash + Ember creates and develops exclusive home fragrances that not only inspire, but have been devised using 100% clean, non-toxic and natural ingredients.

The company has grown from strength to strength with an ever-expanding range, which now includes candles, essential oil blends, room sprays, a pillow mist and bath soaks.

FOUNDER

After spending 12 years working and studying in architecture for a number of prestigious clients and buildings around London, it felt like the right moment for Adam to translate his years dedicated to this creative profession and turn his energy into something new, something he could call his own.

With a love for designing and creating, Adam was looking for a new outlet where he could create something personal that would be utilised in homes and touch peoples lives. He's always believed in being passionate about what work he does, and creating Ash + Ember has given him a fondness for creating something for everyone on a much more personal basis.

"After spending 12 years in the architectural industry, working 60-hour weeks, I started to feel the effects of a fast-paced corporate life, which led to poor sleep, high stress levels and low energy.

I didn't recognise where my life was heading until lockdown, during the Covid 19 pandemic. This led me to kickstart my own well-being journey and launched a new interest in aromatherapy and wanting to ditch toxic chemicals

So in 2021, Ash + Ember was born. Launching initially with three candles made with 100% natural wax and essential oils. It has since gone from strength to strength with a full line of home fragrance products that not only smell incredible, but help with our well-being. It brings me such joy to know I am hand-crafting a product that belongs in people's homes and has helped thousands of individuals. It's a new level of satisfaction that architecture couldn't give me. "

Adam Brindley - Founder

OUR VALUES

NATURAL

All our products are fragranced using 100% essential oils along with high levels of natural or naturally derived ingredients to create effective and luxurious products for the home.

ECO FRIENDLY

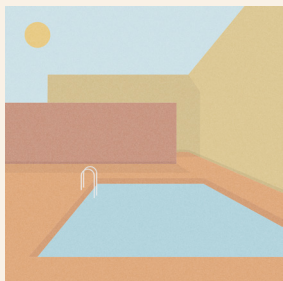

Being a small business means we can control most of our eco decisions. We use non-plastic materials where possible including our deliveries. We only work with suppliers that follow our same mindset to help reduce our waste and non-recyclable materials.

HANDMADE

We hand-make everything you see, from the design of the illustrations on the labels, the blending of the oils with our wax, bases or salts, to the bottling/ pouring of every product to guarantee quality and personal touch.
