# *From the Founder*

I'm Evie, and I own and operate Moth & Magpie, a home fragrance company based in the heart of Scotland.

I've always been sensitive to scent – my dad has always said it was a shame I don't drink, as I'd make a great whisky-taster. To me, the greatest feeling in the world is being able to shut out the noise and smells of the outside world, to light a candle and dive into a good book or film, having complete control over my space.

I've been making candles since 2021, which is the perfect way for me to combine this with the creative side of my brain. I love diving headfirst into a concept, matching fragrance and visuals to a theme.

All of my products are handmade in-house, providing that hands-on touch and maintaining a standard of high quality. Sustainability is important to me, and I source my top-grade renewable materials from local suppliers.

I use coconut soy wax for a sustainable, clean burn, and high-quality fragrance oils developed just for great-smelling candles. All of our candles come in robust, heat-tested jars, with wooden lids to keep them fresh and protected on your shelves.
