- 100% plastic free
- Made from recycled materials. Easily recyclable.
- Comes pre-barcoded and with SKUs on barcode label
- Information leaflet inside
- Colour co-ordinated lids with products for easy identification on shelves

Ohelo Co-Branding:

Have your artwork laser etched onto one of our products for a high-quality finish that won't fade. We use a rotary laser engraver to allow your artwork to appear as it should - rather than using a linear machine like many brands which limits design to vertical branding in a narrow band.

Artwork / logo format requirements: One solid colour (without gradients).

Files are required in vector format (.ai or .eps format)

Artwork / logo placement: All custom designs will be placed on the side of the bottle directly opposite to the Ohelo logo

Artwork / logo dimensions: to be confirmed

Laser set up fee: £30 for 1st product type / colour; £15 for extra colours / product types

Laser etching pricing: For an accurate quote we would need order size and vector artwork. An average 2cmx5cm logo would be £1.00-£1.20 per bottle An average 5cmx5cm logo would be £2.00-£3.00 per bottle.

Minimum order number: 48 units

Colour options: Orders can be fulfilled in a single colour or mixed colours. For a mixed colour order there is a minimum order of 24 units per colour.

Emailed proofs can be provided free of charge

Laser proofing charge (pre-production sample) is possible and would be charged at £35 (including UK delivery)

Shipping will be calculated once order size is known.

All pricing is exclusive of VAT.

Ohelo Co-Branding:

Our Story

We met studying Physics at Oxford. After careers in finance we wanted to work together to create something of value.

Inspired by the Blue Planet 2 series and our love of the great outdoors, we wanted to tackle the problem single use plastics were causing for the world around us.

What we do:

We create awesome drinkware products that are strong, stylishly sustainable and great for the planet.

Product innovation & sleek design make our products fit every lifestyle: stylish urbanite, adventurous traveller or fitness fanatic.

Saying Ohelo to the future:

We aspire to be a market leader in stylishly sustainable drinkware. Sustainability is at the centre of everything we do.

Our goal is to inspire people to make the change from single use options by making that change as easy as possible. We do this by creating eye-catching products that are unique, reliable and easy to use.

Ohelo

Our Vision:
Making beautiful reusables
the new normal.

Our Founders: Katy & Alex
Oxford Physics graduates (geeks!)

The stylishly sustainable
bottle company.

We look forward to hearing from you
