# PACHAMAMA

Designed for life

## Hello from Pachamama,

### About us

We are a small group of woolly enthusiasts who believe the best things in life are made by hand. As a Fair Trade company, we have been working with family run knitting groups in Nepal for over twenty years, creating sustainable relationships based on mutual respect for all. Most of our production is village based, with our knitters fitting production around their own family and work commitments. Despite the seasonal nature of our business, we provide year-round orders for our knitters, ensuring a regular and reliable income. Pachamama is a proud member of BAFTS

### Our Ranges

At Pachamama, we love expressing our individual style and want to help our customers do the same.

You'll find classic cable knits in subtle colours that will work with any wardrobe. Our Chamonix range is a tried and tested staple that will never go out of fashion.

For the bold at heart, we have an array of bright colours, polka dots, stripes, flowers & hearts. If you like patterns, we've got just the thing! Try Patagonia's vibrant spots, Villarica's bright colours or our favourite stripe – Hoxton.

Fair Isle is in, and we have a beautiful range of intricately knitted products featuring this skilful technique. Finisterre gives the individual knitter free reign – we supply the colour scheme, and they use their incredible talents to create delicate fair isle patterns. For something a bit more subtle, our new Elgin & Shetland ranges provide a contemporary twist on the classic design. We love animals!! Our menagerie is filling up – Foxes, Pigs, Puffins, Highland Cows and even Llamas! These cute and quirky designs will definitely bring a smile.

Our ultimate bestseller, however, is our unbeatable Flock of Sheep range. Happy little lambs on a field, available in Bobble Beanies, Socks, Handwarmers, Tea Cosies and even Cushions!

### Womens, Mens, Kids & Home

Although we are best known for creating Women's Outerwear & Accessories, we also have an extensive Men's range, and cater for little ones too!

We have recently expanded into Home Décor & Furnishings – Cushions, Throws, Tea Cosies & Hot Water Bottles, in our best-selling patterns as well as new and exclusive designs.

We love our Felted Friends – hand felted adorable animals, available as Decorations and Keyrings. Fun, quirky and full of personality!
