To tell you a little bit about Jane Buurman handmade

We are a small family run business based near Bath, born from Jane's love of sewing. Jane spends many happy hours making the original designs, incorporating paper, fabric, paint and other materials to create texture and colour, she then stitches the detail freehand using her sewing machine. Once finished the designs are sent to our UK printers to be made into beautiful greeting cards. We use gorgeous quality textured board stock to show off the stitched artwork, it looks so real many people touch the cards thinking they are the originals! Some of Jane's designs are hand finished with jewels to give them that extra sparkle.

Our beautiful cards are printed on FSC approved board and come with a Kraft envelope. They are blank inside and are individually wrapped with a cello bag as standard. Nested or with clasp also available.

Thank you so much for browsing our catalogue, we do hope you like it and have found lots to offer your lovely customers. Our cards can also be viewed on our website www.janebuurmanhandmade.com.

Best wishes
Jane and Ron
