Design & Fun

KIDYWOLF

KIDYWOLF was founded in 2019, with an aim to encourage children's physical, mental, social and emotional development with their design led, fun toys, gadgets and homeware.

Dreamed a Dream

Founded by 3 young dads who wished to change and to bring new things to the toy industry. KIDY-WOLF is intended to offer products that are both beautiful in design and educational for kids.

Kidy & Wolf

"Kidy" speaks to those young children who are not yet children and the "Wolf" live in packs to take care of each. These core principles are what make Kidywolf so innovative.

Values

The designers take care to carefully evaluate the needs and desires of your children, to offer a range of harmless but resistant, aesthetic objects.

Products

Many important notions are integrated through play when growing up. We want to encourage kids physical, mental, social & emotional development.
