# THE MEANING

## INSPIRATION

Inspired by decorative and architecture elements present in classic gardens, where time has passed, imprinting history, memories and personality, Bordallo Pinheiro has recreated a universe of expressive and interpretative potential. The Meaning is a collection made up of pieces that demanded the utmost effort of the brand's production — excellent modelling, demanding assembly of the elements of each piece, rigorous selection of colors, glazes and paints, as well as painstaking hand painting.

In addition to the characteristic naturalism of the brand, present in the representation of fungi, lichens, moss and insects, Bordallo Pinheiro planted a mysterious aura in this secret garden. As if wrapped in an enchanting morning breeze, which makes the colors and textures vibrate and gives life to the beings that inhabit it, this collection invites you to an adventurous and surprising discovery, which will awaken the most intense senses.

The doors are open, welcome to The Meaning.

**PUNK**

## INSPIRATION

The Punk collection is based on the design created by Raphael Bordallo Pinheiro for a large flower box, which is still on display today in the garden of the Caldas da Rainha Ceramics Museum. The geometric elements, dimensions and colors of this piece are reminiscent of the subversive aesthetic of the movement born in England in the 1970s, which included pointy hairstyles, piercings, collars and metal spikes. These influences from the 20th century thus intersect with the irreverence of Raphael, an artist always ahead of his time, in three pieces that celebrate creativity and freedom of individual expression.

# CLOUDY BUTTERFLIES

*by Claudia Schiffer*

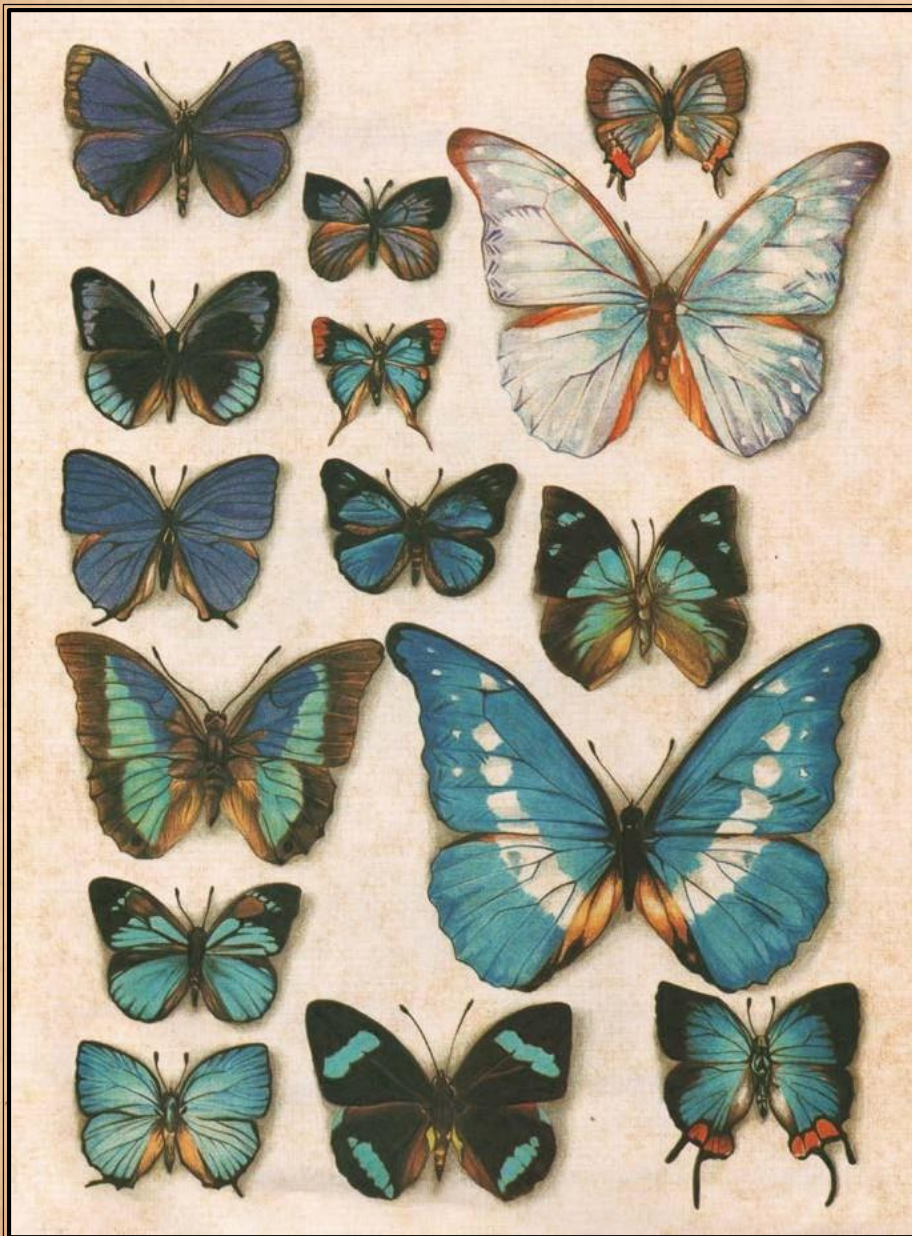

**WATCH THE VIDEO**

## INSPIRATION

"The inspiration for the creation of Cloudy Butterflies derives originally from her upbringing. Growing up near the Rhein, Germany, surrounded by the countryside, I often drew inspiration from nature, such as butterflies and clouds.

With this in mind, I chose naturalistic colours that really explored that sense of bringing nature into the home. For the ceramic pieces, I opted for a more detailed and decorative design in the figurative style of Bordallo Pinheiro".

# FLORA

---

## INSPIRATION

Relaxed and trendy, the new Flora collection evokes a relaxing stroll in the countryside, in that chosen refuge where we seek the serenity and inspiration that only nature in its purest state can give us. Flora brings together a herbarium of plants and flowers, which small and graceful insects are busy around, paying tribute to the beautiful and delicate balance of ecosystems. Plant diversity, which includes poppies, marigolds, dandelions, wild roses, mallows and hawthorn berries, populates the surface of the pieces in high and low reliefs full of detail, with soft country colors accentuated by the unique transparency of the brand's glazes. A versatile line, Flora allows for countless combinations, giving any table the Bordallian DNA: nature, vivacity, imagination and joy.

# TROPICAL FRUITS

## INSPIRATION

Tropical Fruits is new collection of utilitarian and decorative pieces that carry on with the tropical and exotic theme already started in the Amazônia line.

Based on all the artistic and technical knowledge gathered by Bordallo Pinheiro over almost 140 years of work, the treatment given to each piece of fruit is absolutely accurate in terms of shapes, textures and colors. Avocado, Passion Fruit, Annona, Papaya, Passion Fruit, Coconut, and Kiwi are reproduced with all their vitality and together they create a light, relaxed and fresh environment.

# CABBAGE WITH LOBSTERS

## INSPIRATION

There are several decorative pieces created by Raphael where cabbage leaves, hampers with turnips and garlic, onions, seafood and fish create a complex exploration of shapes and colors, demonstrating the full potential of the Fábrica de Faianças.

Reproducing two emblematic elements of these compositions, Cabbage with Lobsters brings Bordallo's sculpture art to the table using a collection of functional pieces that reflect what is most distinctive in the factory nowadays, always with the touch of humor that makes the brand stand out.

**SPRING**

## INSPIRATION

The light-heartedness and poetry of the Bordallian swallows make the piece *Spring* an ongoing season. After hovering over the iconic vase and iconic bowl, and swirling about the elegant plate, they now land on an oversized vase, bringing art and joy to a wall, a table or a dresser. Contrasting with the white of the faïence, the naturalistic swallows create continuous movement and awaken a sense of familiarity wherever the piece is found.

PANEL

## INSPIRATION

---

Raphael Bordallo Pinheiro gave tiles a great importance in decoration, and used them to cover large outdoor and indoor surfaces. The patterned and figurative tiles, in relief, showed care and originality in their compositions, in design and colors of their glazes. After returning from the Universal Exhibition in Paris, in 1889, Bordallo experimented with the winding lines of Art Nouveau portraying grasshoppers, butterflies, frogs, water lilies and crabs, in intelligent styling, creating a universe of unique tiles. Continuing the Bordallo Pinheiro tradition of challenging ceramic techniques (and scale), Bordallo Pinheiro reproduces some of these patterns in a contemporary collection of three large plates. Framed by a wide glazed border that embraces them, the tiles show their usual allure and their innate timelessness.
