*Did you  
know?*

Noel is another word  
for Christmas, surprise!

However, the word Noel is often used only in a religious context. It's possible for people to wish each other a Happy Noel, but the word is perhaps most commonly seen written on things like Christmas cards and decorations.

The word can also be used to refer to a Christmas carol or song (in which case it is not capitalized), but is no longer commonly used this way. Fittingly, most people know the word from the popular Christmas carol "The First Noel."

The first records of the word Noel in English come from the early 1800s. It comes from French Noël—the French way of saying "Merry Christmas" is Joyeux Noël.
