

PEPER HAROW

MADE IN ENGLAND

About Us

Founded in 2013, Peper Harow is a quintessentially British brand supplying customers across the globe with the highest quality socks, luxury accessories and exquisite gifts. Our designs are unique, fashionable and created to compliment the modern lifestyle of both men and women.

Our name, Peper Harow comes from a Parish of the same name in Surrey with a cricket heritage dating back to 1727. The name is representational of our inspiration of British roots.

All of our socks are made entirely in the UK at our West Sussex factory. The manufacturing sector is one of the most energy intensive sectors in the UK. We believe that it is important to minimise the environmental impact and secure our progressive future. We have installed solar panels on our factory roof which has helped to reduce our energy consumption by 20%.

Here at Peper Harow we pride ourselves on only using the finest sustainable quality cottons which are recycled cotton, organic cotton, supima cotton, and Egyptian cotton. All cottons are sustainably and ethically sourced and grown, the dyes used are Azo free and we never test on animals, giving you luxuriously soft, superior quality socks every time.

We are also proactive in sourcing and using sustainable packaging including recycled paper and minimize the use of plastic as well as only using recyclable and biodegradable bags.

All of Peper Harow socks come with 1 year quality guarantee.
