

Rosemullion is a family-run craft distillery set in rural Cornwall. We create our own base spirits to ensure quality, flavour and authenticity.

Our truly artisan gin and rum is made in small batches in our copper-still, using Cornish rainwater in the fermentation and distillation process.

Rosemullion's gin botanicals include juniper, coriander, angelica root, liquorice, local seaweeds and fruit.

Our rums are 100% pot-batch distilled from fermented molasses to retain essential flavours, whilst the whisky is based on peated malted barley.

DRY GIN

A bold blend of juniper, botanicals and citrus fruits, infused in Cornish distilled spirit to create a classic modern gin.

SUMMER GIN

A fresh gin with a summer fruit, infused with Cornish elements to create a refreshing drink, perfect for summer evenings.

HARVEST GIN

A light blend of juniper and botanicals, complemented by autumnal fruits to create a warm gin.

SEAFARER'S GIN

Inspired by the salty air and stormy seas which crash against the coastline of Cornwall. Made using a blend of botanicals found along the coast, and seaweed from the shoreline.

NAVY GIN

As this is balanced Navy strength gin, it works really well in cocktails. Served with premium Indian tonic water and a slice of lemon.
