the microgreens co.

## Hello and welcome to Teeny Greeny's wonderland of Microgreen grow kits.

I'm Alice, the creative behind Teeny Greeny and I've been on a crusade to make growing Microgreens at home as easy as possible for everyone - If I can grow these teeny but mighty greens - then so can you!

**So let's start sowing the seeds and grow a greener future together.**

*Alice (Grower, Owner & Founder at Teeny Greeny)*

## Your health is priceless so invest in yours by growing your own superfood with us.

Teeny Greeny started life as part of a first-generation small urban farm in the beautiful Wiltshire countryside. Now we've invested all our experience into creating fun and nutritious organic grow kits that will flourish in anyone's home. Teeny greeny has an aim to equip more families with the tools they need to grow their own Microgreens, not only for the convenience of having fresh, delicious ingredients and garnishes to brighten up their food, but also for the health and wellbeing rewards that this offers.

### Sow it - Grow it - Eat it

8-14 days from sowing you'll have fresh, delicious and highly nutritious superfood - add to any meal, anytime of the day!

- **100% plastic-free**
- **100% organic**
- **100% purpose led**
- **Grow all year round**
- **Amazing health benefits**
- **Super simple to grow**
- **Enhance your wellbeing**
- **Handmade in UK**
