... so I did*

Our Story

Emily Smith is a British brand that launched in 2018.

Emily is a dairy farmer's wife and mother to two fantastic children, her venture all started with a painting she did for her son's bedroom. She then stepped out of her comfort zone from a simple canvas to pursue and grow her love for design. She has now curated a collection of luxury homewares and accessories, one to make a person smile. Each of Emily's designs brings character and charm, inspired by the imaginations of her children, William and Livy, and from living in the beautiful Devon countryside.

Emily is proud to support British manufacturing and she has a real passion for combining colour, fun and quality.
