

A circular color chart with 24 segments of various colors (blue, orange, yellow, red, pink, purple, brown, green, cyan, magenta, etc.) arranged in a circle, with a white circle in the center.

**PRiMO**

2022

A vertical wooden post, heavily splattered with various colors of paint (red, blue, yellow, green, and black), stands in a large, shallow container filled with a vibrant green liquid. The liquid has a marbled, swirling texture. The background is a solid, dark green. A horizontal white line is positioned above the text.

There is a whole  
world between black  
and white, thanks to  
colour we have a proof  
of that.

Hello and welcome to the Primo, Hobby and professional 2022 catalogue. Whether you are new to the CMP Morocolor ranges or an existing stockist, we have an exciting range of new items to add to the existing products from 2021.

This version of the catalogue has been created by Primo Crafts\*, the official UK distributor of CMP Morocolor, and includes the products readily available in the UK.

If the Primo and Hobby and Professional brands are new to you, here is a bit of the background of the CMP Morocolor story.

CMP Morocolor is a family-owned business based in Northern Italy. The company was created in 1933 as a chalk and watercolour manufacturer. Generations later the company has evolved to offer a much larger range of products 'Primo' and 'Hobby and Professional', and these are now sold in 80+ countries.

The Primo range is aimed at young artists and is tested to be child safe (2009/48/EC Toy Safety Directive), but is also of a suitable quality for all artists. Each section of the catalogue has some guidance on the main category page to provide important information about the products, testing and ethics used in the product production and packaging. In some instances, you may need additional information or copies of certification – in these cases please contact us and we can supply the relevant information.

The Hobby and Professional range are aimed at the more accomplished artist from the age of 14+. Hobby and Professional does concentrate on quality to provide the artist the best of materials to create the resulting masterpiece.

Both ranges are supplied in packaging with multiple translations – generally Italian, German and English titles and further translations on the reverse of the packaging.

As a multi generation family company CMP Morocolor are extremely focused on the environment and product quality. The company's production facility is powered by solar energy, the production cleaning processes save on water use and reduce water pollution. Any production waste materials are recycled, and CMP Morocolor encourages long use of any plastic packaging for their products by making them useful to enhance the user experience.

Primo Crafts are part of a 24-year-old family business based in the stunningly beautiful Scottish Borders. We have worked alongside CMP Morocolor since 2020 and are excited to bring a high quality, uncompromising range of paint and art supplies to the UK. We particularly enjoy working with our agents using our retail expertise to tailor make the range to your requirements.

Finally, from the team here at Primo Crafts please contact us if you have any questions. We look forward to working together to supply the talented artists of the world, enabling them to create masterpieces and bring joy to us all.

*Mark, Catherine, Lynn and Marc*

\*Primo Crafts is a trading name and division of Sco Logic Ltd

**PRIMO**

www.morocolor.it

MADE IN ITALY

Colours are part of our family tradition, which began in 1933 with a small white piece of chalk.

Today, we export to more than 80 countries worldwide from our Italian production of Primo paint, school and crafts products.

Especially dedicated to young artists, but also perfectly suitable for creative people of all ages.

Our spirit remains as we started: we love our products.

*“At this time  
in history we believe it  
is impossible to think  
about the future  
without considering  
the wellbeing of the  
planet.”*

**PRIMO**

# Watercolours

*A wide range of excellent quality and very long-lasting watercolours.*

*Each watercolour tablet allows for various covering effects, strong colours if used with little water, and transparent if diluted with a lot of water - ideal for traditional watercolour techniques and can be used on standard paper or watercolour paper.*

*Made entirely in Italy using clean solar energy and respecting the environment using enhanced production cleaning techniques and recycling of waste materials.*

*The multi-functional packaging design encourages long use and reduces single use plastic waste.*

# Watercolour tablets

## Tempera Poster paint

*Tempera poster paint is a water-based product that dries with a shiny surface rather than a chalky dusty finish. This makes colours well balanced and offers unlimited shade possibilities.*

*There is a Tempera formulation for every age. You can start with Beginner's poster paint which has very bright colours and an excellent washability. Primo Tempera Premium poster paint is rich in texture and quality to obtain excellent covering and opaque effects. Primo fine poster paint is a concentrated version in tube, it is highly pigmented and vivid, and should be diluted with water.*

*All poster paint versions can be used on paper, cardboard, wood, fabric, glass, terracotta.*

*The range includes a wide choice of traditional tones as well as metallic, pearlescent and fluorescent colours, to create special effects.*

*Available in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.*

*Primo poster paint is manufactured entirely in Italy using clean solar energy and is respectful of the environment through enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.*

## 50 ml poster paint

Posterpaint, bottle with flow-control nozzle,  
single colour.  
12 colours.

Follow us on:

# NUOVO ColoreCercasi

We embarked on a journey to discover unknown colours in the world. To be able to do so, we relied on our best creatives: children. These colours are made of imagination and wishes.

**VERDEMONDO**  
created by Emma,  
a true passionate  
of green and nature

**VIOLENO**  
like Pesaro, the town  
of Serena, which  
represents music,  
art and culture

**MIELORO**  
represents August,  
the end of summer  
and the honey harvest  
for Aurora

**EVERANTO**  
the colour and  
scent of the  
forest according to  
Giuseppe

**ROSSOMARTE**  
the colour of  
commitment and  
of the planet where Erik  
wants to escape to get  
away from his homework

**SUPERBLU**  
the blue sky outside  
Diana's window

# Finger paint

*PRIMO finger paint is suitable for children from 2 years.*

*It is safe and dermatologically tested.*

*It is ready for use as is, and has a soft and smooth texture, which is pleasant to touch. Its consistency is perfect for painting with your hands. The effect is gorgeous. The colour is vivid and remains bright even when it dries.*

*It can be applied on various materials such as paper, cardboard but also on glass. It is resistant to light and does not fade with time. If you wish a slightly magical and a little dreamy effect, try out pearl finger paint.*

*To decorate fabrics and clothing there is also textile finger paint.*

*Produced entirely in Italy with clean solar energy and respect the environment from enhanced production cleaning techniques and recycling of waste materials.*

*All packaging is recyclable. Availability in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, all packaging, and large formats for school.*

## Acrylic paint

*PRIMO acrylic paint is water based and available in 22 shades, including gold and silver - designed to obtain very bright and vivid effects.*

*Primo acrylic paint can be easily applied with a brush and once dry colours remain vivid and bright. It adheres to any type of surface. When dry, it does not crack even if applied in multiple layers.*

*Ideal for children who want to experiment and feel like artists, and can be used with stencils, spatulas and sponges to bring out the creative potential of this paint.*

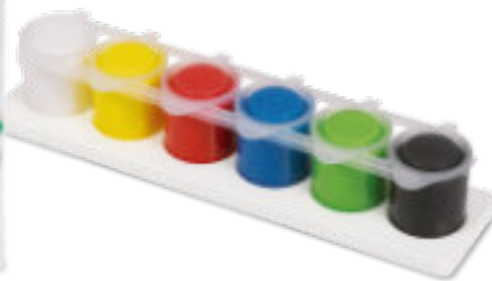

*By mixing the colours together new tones can be obtained.*

*Entirely produced in Italy with clean solar energy and respecting the environment from enhanced production cleaning techniques and recycling of waste materials.*

*Availability in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, all packaging, and large formats for school.*

## 6 x 25ml acrylic paint set

Acrylic paint.  
1000ml bottle with flow-control cap.  
12 colours.

## Window colour

*Can colour be turned into an object?  
Simply apply one or more layers of our  
window colour onto a plastic sheet and let  
it dry for 24 hours: it will become a  
transparent elastic film, which can be  
attached and detached on glass and on all  
smooth surfaces.*

*You can apply the paint directly from the  
bottle with the flow-control nozzle.*

*By painting on a transparent sheet with  
Window Colour, you can easily trace an  
underlying drawing. Tones can be mixed to  
create new shades.*

*Results are always intense, transparent  
and shiny.*

*It is available in a set or in loose bottles, in  
recyclable packages.*

*Made entirely in Italy with clean solar  
energy and respectful of the environment  
using enhanced production cleaning  
techniques and recycling of waste  
materials. All product packaging is also  
recyclable.*

# Textile paint

*The PRIMO textile paint follows the nature of fabric with great flexibility. Colours are lively and bright, ready to indulge the imagination for a permanent effect.*

*It can be applied in a in thick or thin layers, and once dry it remains well covering, with lively and luminous tones. When diluted it can be applied with an airbrush to get a softer hand on the fabric.*

*Textile paint does not require ironing, but it must be left to dry perfectly for at least 24 hours.*

*Available in a wide range of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, all packaging, and large formats for school.*

*Made entirely in Italy using clean solar energy and respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.*

## Wax & oil crayons

*Primo's range of wax crayons and oil pastels offer a wide selection of different sizes and quality to cater for the needs of children: classic, jumbo, triangular and supersoft, dry-erase for whiteboards, water-soluble and oil pastels.*

*The basic crayons are available in plain stick format and have been formulated to avoid your hands getting dirty. They are also available with an ergonomic sheath that helps with writing.*

*The jumbo version is ideal for little ones with a wider stick and easy to grip.*

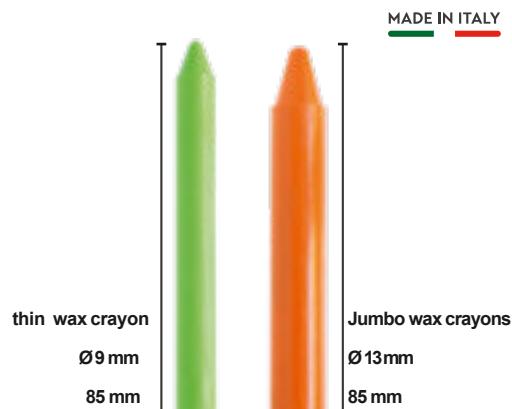

*Dry-erase whiteboard crayons can be used on a variety of different surfaces such as plastic and glass. Primo's whiteboard set with dry-erase crayons provides an excellent portable drawing set.*

*Supersoft triangular wax crayons are particularly intense and bright, thanks to their shape they facilitate grip. They are soft but resistant, practical to hold and they do not stain.*

*Oil pastels are created with a smooth texture and deeply pigmented allow for light delicate or thick multi-layer coats. The experience and texture of the artwork can be further enhanced by the use of different paper types.*

*All Wax crayons and pastels are produced in Italy with clean solar energy respecting the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.*

- Luminous and intense colour tones
- Very smooth-flowing on paper or cardboard, results are uniform
- Highly resistant
- Unwrapped - they don't make hands dirty
- Eco-friendly - zero waste, long lasting and with recyclable packaging
- Thin or jumbo depending on the different needs and age of children

## Wax triangles

*Triangle crayons are one of CMP Morocolor's patents which they have always been proud of.*

*Wax triangles have been designed to allow perfect hold to draw easily and quickly with the tips, or to obtain volume and blends with the sides. The crayons are also excellent for rubbing, bringing out shapes and textures as if by magic.*

*Compact and extremely durable, the crayons do not stain hands and are excellent for young children for personal development of early years drawing and colouring.*

*Made entirely in Italy with clean solar energy, respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.*

# PRIMO

## Pencils

*Since early childhood, coloured pencils accompany us with their simple, delicate, and poetic strokes.*

*Available in 36 colours, in a variety of different pack sizes and in many formats: normal and jumbo hexagonal-shaped, triangular-shaped, and premium Minabella pencils.*

*All pencils are produced using FSC™ certified – C113256 wood and we encourage long use of any plastic casing to avoid single use plastics. All packaging is recyclable*

*“Minabella” pencils are so named because they are particularly beautiful.*

*Created with a thicker lead - approx 3.8 mm. Minabella pencils are soft, pasty and more resistant. Available in traditional, metallic, and fluorescent colours their tones are very intense and perfect to create special effects and reflections.*

*The PRIMO pencil sharpener is ideal for both normal and Minabella pencils.*

*Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.*

## 12 coloured pencils

## Fibre-tip pens

*Primo offer a range of quality fibre tip pens in different sizes suitable for a variety of different artistic techniques:*

*Fine tip suitable for all styles and ages.*

*Jumbo tip for easy grip and as a large marker.*

*Double tip providing a wide and narrow tip pen.*

*Brush tip for artistic blending and fine drawing.*

*All pens have bright and lively tones, and they are easily washable from fabrics. The fine tip and jumbo pens are also designed to not dry out within 3 days of a cap being left off.*

*In addition to the traditional range of colours there are also glitter and fluro markers to give a sparkling and luminous effect.*

*The fibre tip range also extends to Textile markers, ideal for decorating fabrics and clothing.*

*Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.*

Textile fibre-tip pens in carton.  
8 colours.

## Modelling material

*Easydò is a soft and elastic dough. It is gluten-free, 99% of vegetable origin, vegan and dermatologically tested. Available in a range of bright and vivid colours it enables you to build with your imagination, create with your hands.*

*Primo Mod, white or terracotta air dry clay, is gluten-free, 98% of natural origin, vegan and dermatologically tested. It is ready to use and dries naturally - not requiring cooking. Once dry, it can be painted and varnished.*

*Thanks to some creative and fun accessories, it is possible to create three-dimensional puzzles.*

*Easydò and Mod's design is safe and excellent for personal development from an early age.*

*Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.*

*All Mod and Easydò is made in Italy with clean solar energy and respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.*

## Chalks

*CMP Morocolor's history invokes an affection closeness to chalk, simple but full of evocation and with special strength. Chalk is the root of the company's history, a special emotional bond remains to it. Chalk may be simple and humble, but it carries a unique fascination and expressive power.*

*Available in fine stick white or coloured, anti-dust formula and Jumbo sidewalk chalks - calcium carbonate based cylindrical chalks*

*Chalk is the perfect choice for the youngest artists.*

*Made entirely in Italy with clean solar energy and respectful of the environment using enhanced production cleaning techniques and recycling of waste materials. All product packaging is also recyclable.*

|      | 36                |

MADE IN ITALY

Bucket of 22 jumbo chalks  
7 colours.

## Glue

*Primo glues are solvent-free, gluten-free and supplied in recyclable bottles.*

*Primo glues (glue stick, water-based and vinyl glue) can be used on paper and cardboard; vinyl glue is powerful enough for wood and some fabrics.*

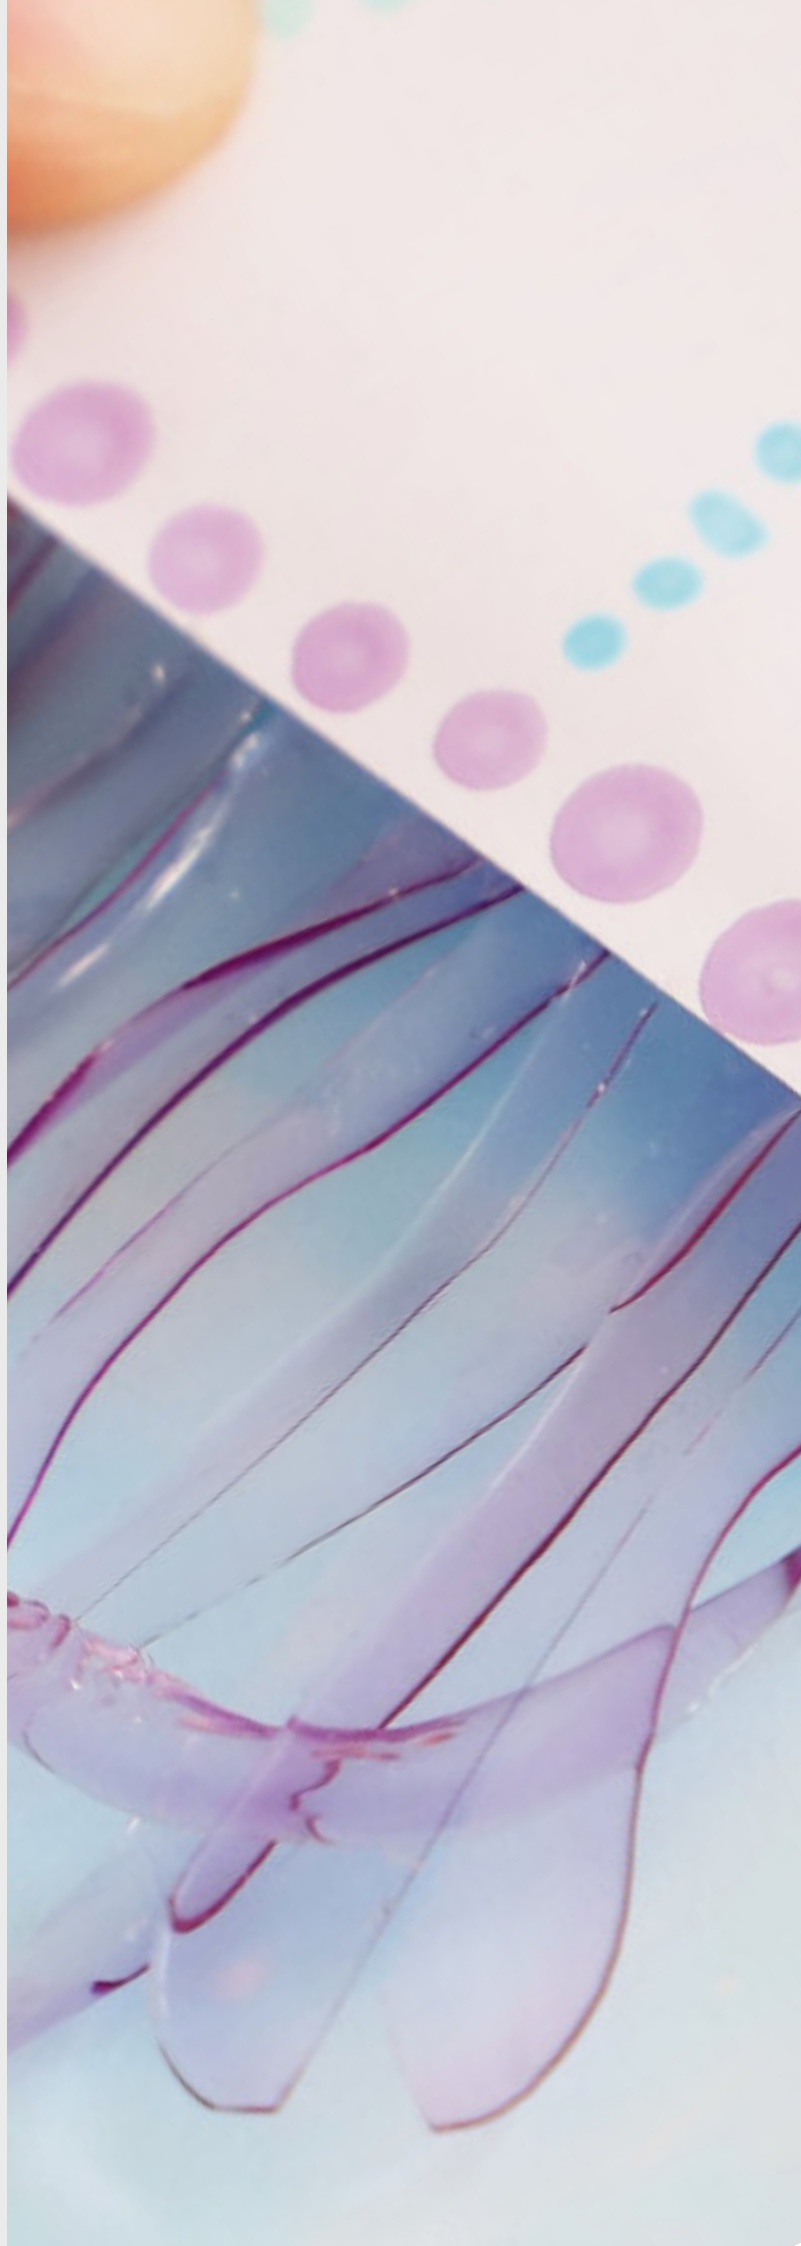

*The coloured glues are glossy and transparent. Ideal for slime thanks to the activator, but also excellent for experimenting creative effects.*

*They are easily washable from fabrics.*

*They all have high adhesive power.*

*Vinyl glue and water-based glue are produced entirely in Italy with clean energy. PVP glue stick is made in Europe.*

*Available in a variety of formats, tailored to the needs of each customer and sales channel: retail shops or supermarkets, online and offline, gift packaging, and large formats for school.*

# PRIMO

## Accessories

*The Primo range comprises of a range of brushes and accessories to assist in everyday drawing and painting.*

*The range offers a series of round and flat brushes for poster paint and watercolours for young artists.*

*Every artist needs a mixing palette and water cleaning. For early years we have a rectangular mixing palette or an oval palette for more experienced artists. Specially designed water cleaning pot is anti-spill and has 2 sections.*

*Additional accessories include dosage control pump and multi-functional storage.*

# PRIMO

HOBBY • PROFESSIONAL  
&

PRIMO HOBBY & PROFESSIONAL range is dedicated to creative people, artists, and professionals: an extremely wide range of high quality mixable colours for endless fusion of techniques. Suitable starting from 14 years of age.

*“Art and creativity can help us living in a more harmonious and respectful way.”*

# Acrylic pouring paint

*Ready-to-use acrylic colours for pouring technique. Tones can be mixed to create different shades. Amazing marble effects are obtained by moving the poured surface slowly and by letting the liquid mass slide.*

*Pouring acrylic Medium allows you to mix your own colours of acrylic paints for pouring technique. It optimizes colour spread and creates even layering.*

# Fine acrylic paint

*High quality fine acrylic paint, opaque and very covering, suitable for various kinds of surfaces.*

*It can be applied easily, and it remains vivid, pleasant, and resistant to the touch after drying. Once dry, it is completely permanent.*

*The TEXTIL variety is specifically studied for textiles. Owing to its conveniently thick consistency, it can be applied both in very thin and thick layers. When dry, it does not crack and remains so soft and durable.*

*TEXTIL does not require ironing, but it is very important to let it dry for at least 24 hours.*

*All Packaging is 100% recyclable.*

# 75ml tube art set

16 x 75ml tubes

Art set with fine acrylic paint in 75ml tubes.  
15 colours,  
1 coarse grained structure paste,  
2 canvas boards 18x24 cm,

Floor standing display containing  
 360 x 125 ml bottles:  
 36 acrylic paints,  
 20 textile paints,  
 1 glossy varnish,  
 1 mat varnish,  
 1 acrylic glue,  
 1 acrylic chalk,  
 6 pieces of each.  
 144 x 75 ml tubes:  
 22 acrylic paints,  
 1 structure paste fine-grained,  
 1 structure paste coarse-grained,  
 6 pieces of each.

## Pastes & Primers

*Coarse & fine structure pastes are water-based with a very good covering capacity. It is possible to mix them with acrylic paint or to use them pure and then paint on them once they dry.*

*Results are plastic, irregular, and three-dimensional.*

*Glossy and matt varnish, and acrylic glue to apply as a background for paintings on different materials such as paper cardboard, canvas and others.*

*Highly pigmented matt blackboard paint, with a high covering capacity. It adheres to any kind of surface (wood, metal, concrete, clay, plastic, cardboard etc.) and it can be easily applied with a roller. Drying times depend on the type of surface where it is applied (6-48 hours are needed to dry). Once dry, it becomes permanent.*

## Structure pastes

## Oil pastels & paint

*Quality and tradition: Hobby and Professional oil paint is made according to the historic formula with pigments and linseed oil without drying agents and without any solvents. The result are intense and very bright colours, ideal for canvas, carton, wood.*  
*water-soluble oil pastels are extremely soft, their tones are shiny, and do not leave pastel remains on the painted area.*

*Fine watercolour in aluminium tube, is a highly pigmented water-based product, ready to use, of the finest quality. It is very transparent and intense, suitable for the classic technique of watercolour painting.*

*Fine watercolour in tablet form, various levels of transparency can be obtained by diluting the powder.*
