WHOLESALE
CATALOGUE
2022 ISSUE 2.0

Welcome

Hello and welcome to the STITCHFINITY Wholesale Catalogue.

STITCHFINITY was founded by Annie and Alison. We met when we lived opposite each other and we would get together every Friday night for a catch up on the week and a glass or two of wine. After discussing that we never had time for craft we realised if we put the glass down we could pick up a needle and thread. So Friday Night Craft Club was born.

Alison decided to finish off a long-forgotten cross stitch kit and Annie was inspired to do something similar. The challenge was finding a design she wanted to stitch. Before long, we were designing our own and have been since 2013.

We have built up a loyal following at retail shows and our Mini Kit range has been hugely popular. For us, it was the obvious choice for a wholesale offering. We are delighted to now be adding the option of a card to many of the same designs as well as bringing our Beginner Kits into our wholesale range.

Who are these kits for?

Our aim is to create designs that are modern, fun and colourful. We want to encourage people to stitch so that they enjoy the process of creating, experience the mindfulness of stitching and the pride in the finished result.

Mini Kits and Mini Card Kits

Our Mini Kits and Mini Card Kits are intended to appeal to a wide age range, both male and female stitchers and are suitable for young adults and up.

Our Mini Kits and Mini Card Kits all contain 14 count Aida (the fabric). 14 count means there are 14 stitches per inch; this "count" of fabric is great for beginners.

They would be a great place to start for someone who has never stitched as they also contain everything needed to complete the design apart from a pair of scissors. For an experienced stitcher they are a satisfyingly quick and easy project.

Once complete, the picture could be framed or, for the card kits, mounted in the aperture card.

The small size of the kit means it is very portable, ideal for stitching while commuting, watching the television or taking on holiday.

Beginner Kits

Our Beginner Kits have been developed with younger children in mind. We would recommend these for children aged 7 and up, although expect children at the younger end of this age range to need adult help to get started and probably untie a few knots along the way!

The Beginner Kits contain 6 count Binca (the fabric). 6 count means there are 6 stitches per inch. The holes and squares on Binca are large, making it perfect for younger children. We also supply a chunky (and not very pointy) needle which is easier for little fingers to grip.

All our Beginner Kits have been road tested at workshops, where children have picked the design they want to stitch. The most popular ones make it into kit form.

Once stitched, they can be framed in inexpensive frames from places like Ikea, The Range or Hobbycraft so that the young stitcher can proudly enjoy what they have made.

Why cross stitch?

Craft in general is great for mindfulness and has become increasingly popular recently as people look for both a distraction from busy lives and the joy of creating something. Cross stitch is a great way to wind down and relax - it's not too demanding of your attention (Alison loves a good crime drama and can stitch and follow a plot!) and you have the satisfaction of seeing what you've achieved.

It's also a lovely way to get kids involved in making something with their hands. We have taught a lot of kids to cross stitch at workshops and it always amazes us how long some of them will happily sit and stitch away. (It's also amazing how often we get a bit of dust in our eyes right at the moment they excitedly show us their finished creations).

How can I display these kits?

The packaging works well in a suitably sized card display stand or spinner. We can also supply Euro hangers which you can stick to the back of kits to hang from display hooks - if you would like Euro hangers please ask about this when ordering.

What else should I know?

We release new designs across all ranges and often add to existing themes such as "summer" or "transport". You can see some of the themes we already have by looking at the tags in the following line sheet.

We can provide web quality and print quality product photographs, if required, please ask for further details.

Recycling information

We care about our planet and we try to think carefully about what we do and how we do it.

Our website has our environmental statement, the link can be found at the end this section.

We print this information on the kit insert, visible to the customer before they purchase:

PATTERN: Paper and card recycling

BAG: The bag that this kit is sold in is NOT plastic, it is PLA (corn/potato starch). The best way to dispose of it is in a home compost bin or industrial composting, if you can. Your local council may be happy for you to dispose of it in your garden waste or food recycling but it would be wise to check first. You can dispose of the bag in your general waste and it will break down faster than plastic but not as fast as if it's composted. The bag should NOT be put in your plastic waste recycling. **Why do we use these bags?** Because they break down faster than plastic and are therefore kinder to the environment even if they do not end up being composted.

Hello!

We hope you enjoy stitching this kit.

When you've finished, you may want to frame your work of art and display it.

We'd love to see how you get on - if you want to take a picture and send it to us, our details are below.

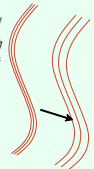

Now you've tackled a Beginner Kit, you may want to try another, or even collect them all!

Beginner instructions

STITCHFINITY HOW TO CROSS STITCH

1. Have a look at your design and decide where you want to start. If we were sat there with you we'd say start at a corner or a point so it's easy to remember where you are. If you are not sure, ask a grown up to help you decide. Find the colour of thread that matches the colour where you want to start.

2. The thread in your kit has 6 strands in each piece. You will need 3 of them for your stitching to do this one strand at a time. Keep the other 3 safe and try to make sure they don't get tangled - need these later.

3. With 3 strands of thread together, fold the thread in half and thread the ends into the needle. The end with the 3 threads to be longer than the end threaded through the needle, like this.

Who is this kit for? We recommend this kit for ages 7 and up, although expect children at the younger end of this age group to need hands on help with things like threading needles and getting going. Don't worry if you've never cross stitched before, the kit contains full instructions! We originally created our Beginner kits for children's workshops, we had great success in a supervised setting where we were on hand to help. Cross stitch is not a difficult technique to master (there's only one stitch to learn) and once children get into the swing of stitching and following a pattern they usually only need help to finish their thread (and start a new one). Oh, and sometimes untangling knots!

Why buy this kit? This kit is a great way to get children started with the simple craft of cross stitch and maybe get them to sit still for a little while (it does happen, we've seen it!). The finished result can be framed for them to display proudly in their room.

Recycling information: **PATTERN:** Paper and card recycling. **BAG:** The bag that this kit is sold in is NOT plastic, it is PLA (corn/potato starch). The best way to dispose of it is in a home compost bin or industrial composting, if you can. Your local council may be happy for you to dispose of it in your garden waste or food recycling but it would be wise to check first. You can dispose of the bag in your general waste and it will break down faster than plastic but not as fast as if it's composted. The bag should NOT be put in your plastic waste recycling. **Why do we use these bags?** Because they break down faster than plastic and are therefore kinder to the environment even if they do not end up being composted.
