

HEYLAND & WHITTLE

LONDON

OUR STORY

As an award winning British soap and home fragrance manufacturer, we are well known for creating beautiful, natural products the traditional way. Husband and wife team Paddy Heyland and Ursula Whittle established the family run, luxury soap and fragrance company on a farm in rural Surrey back in 2003.

Inspired by nature, we follow the traditional cold-processed method to produce the finest handmade soaps. Using only the very best natural ingredients, essential oils, herbs, spices and pure colourants, like madder root and turmeric.

Home fragrance was a harmonious addition to the bath and body collection. These signature fragrances, handmade in England, are delivered to our customers worldwide.

THE WORKSHOP

Step through our doors and the scent of glorious fragrances greets you.

We pride ourselves on the family atmosphere in the workshop, where our products are formulated, made and packaged for distribution worldwide.

Our teams of dedicated staff make up the highly trained and skilled workforce who oversee, with care and precision, the handmade soap and bath melt production, diffuser and candle pouring. Sold by top retailers such as Fortnum & Mason, Radley and Harrods.

Our quintessentially British ranges of fragranced candles, diffuser and bath and body products can also be found in hundreds of British independent shops as well as in the USA, Taiwan and Europe.

SOAPS

Our collection of fragrant, handmade Palm Oil-free soaps are 100% natural and are boxed in responsibly sourced FSC recyclable card.

Palm free encourages eco-positive shopping habits and promises a better tomorrow for the planet.

We are well practised in the artisan production of handmade, 100% natural soaps and follow the cold-processed method using only 100% natural, pure ingredients, including essential oils, herbs, spices and natural colourings such as madder root and turmeric.

All our soaps are paraben and sulphate free and are not tested on animals.

ECO COLLECTION

Our Eco-Collection of fragrant, hand-poured and blended soy candles and reed diffusers is housed in 100% recycled glass and packaged in responsibly sourced FSC recyclable card. This eco-collection helps customers to make more eco-friendly lifestyle choices. It also highlights our serious commitment as a business to care for the planet.

The diffuser and candle vessels can be re-purposed again and again - as drinks glasses, hot beverage glasses, flower vases, biscuits and snack bowls, water and juice jugs.

The fragrant hand-poured candles are made with a sustainable soy wax blend for a clean, slow, even burn.

GOLD CLASSIC

We create beautiful home fragrances inspired by, and true to, those found in Nature.

Reed diffusers effortlessly and continuously deliver an enveloping scent, and are a stylish way to fragrance the home. Uniquely crafted, sprayed and creatively etched, the attractive reed diffuser glass adds a sophisticated and decorative touch to the room.

All the fragranced candles are poured by hand. The unique soy wax blend burns cleanly and evenly. Each candle's unique sprayed and etched glass vessel reveals, as the wax burns away, a beautiful flickering pattern silhouette which will enhance the atmosphere of every room.

Our luxurious, sophisticated and opulent diffusers and candles come beautifully boxed and make the perfect gift.

CLASSIC COLLECTION

The luxurious Classic Collection launches this season with four finely blended, true to Nature, signature fragrances.

Lavender & Chamomile – calming and relaxing

Ginger & Lime – warm and energising

Bergamot & Fern – bright and breezy

Clementine & Prosecco – light and bubbly

Choose from aromatic candles, stylish diffusers and handy room mists. The decorative reed diffusers effortlessly and continuously deliver an enveloping scent. The hand poured, sustainable soy wax candles burn cleanly and evenly. The room mists deliver an instant burst of aroma. All beautifully presented in elegant, sleek glass containers.

All boxed in responsibly sourced FSC recyclable card. Recycled plastic and recyclable glass and tins.

OWN BRAND

We have years of experience manufacturing the highest quality candles, reed diffusers, soaps and other fragranced products.

We have our own extensive fragrance library and also work alongside award winning fragrance houses who can create signature scents for clients.

At Heyland & Whittle we can offer a complete package from design, fragrance and product creation all the way through to manufacture and delivery.

Our dedicated teams are passionate about creating high quality candles, diffusers and soaps, working to deliver products that adhere to required EU and USA legislation.

Our Own Brand team understand the challenges of budgets, deadlines and the importance of communication.

Product lines can be as small as 300 per fragrance to runs into the thousands.

The cost per unit and lead times are dependent on each specification.

We offer a wide variety of containers which can be labelled or decorated with any pantone colour or precious metal. We can also supply all types of packaging from flat packed to luxury rigid boxes accessorised with ribbons and bows.
