FUTURE [24-25]

“Italian style for everyone in the world”

 S.p.a.

1988

The story of the Italian modern furniture company, LC S.p.a., began in 1988 with the confluence of two experiences, the technical one, from Mr. Lorenzo Campanelli and the commercial one, from a German company.

The development of innovative design products at a price accessible to large distribution has made LC a leading Italian manufacturer in living furniture.

Since 2007 the company LC is finally "100% Made in Italy" also in its share capital. Today Lorenzo is supported in the management also by his children Lucia and Francesco.

02 VALUES AND MISSION

INNOVATION

The constant search for new solutions is the key to our success. Proposing ideas that are aware of the real needs of the market makes us pioneers in terms of innovation.

INTEGRITY

We have always been a reliable and solid company of integrity that believes in the respect and honesty of people.

RESPECT FOR THE ENVIROMENT

In compliance with policies that are increasingly attentive to human impact on the environment, we choose raw materials whose sustainability we can guarantee, for a more planet-conscious future.

FLEXIBILITY

Flexibility, dynamism and inclination to change are among our main prerogatives which most identify us.

MULTI-CONNECTED

Our German origins have influenced us in many aspects, including that of being a multi-connected reality with Europe and the world. About 50% of our turnover comes from export market.

PEOPLE & COMMUNITY

We believe in people and their potential in which we invest continuously. We consider our territory a precious value, to be cultivated and protected every day.

Henry Ford

PRODUCTION AND EFFICIENCY

THE ONLY WAY TO DISCOVER THE LIMITS OF THE POSSIBLE IS TO GO BEYOND THEM INTO THE IMPOSSIBLE.
Arthur C. Clarke

PRODUCTION
AND EFFICIENCY

Our company is young, dynamic and proactive, capable of innovating and quickly adapt itself according to market needs.

Our turnover is over 80 million euros/year and the projection is to exceed 100 million euros/year in the next 2 years.

Consolidated distribution network, with customers throughout Europe, the Arabian Peninsula and Africa - soon also in Latin America

In the last 3 years we have invested over € 20M in the company, which allows us to have better and better results every year.

PRODUCTION AND EFFICIENCY

IT'S NOT ABOUT IDEAS. IT'S ABOUT MAKING IDEAS HAPPEN.
Scott Branson

A company like ours, surrounded by the beautiful hills of the Marche region, is intrinsically connected to its territory and feels responsible for its future. And it's this feeling that drives us towards policies sensitive to eco-sustainable values, respecting the environment and its ecosystems.

The mark of responsible forestry

This certification guarantees that the entire wood-paper supply chain derives from a respectful, socially useful and economically sustainable management. The FSC brand distinguishes the raw materials used by our company.

Our company, in line with its green values, has inserted filtered water dispensers in its common areas to counter the massive use of plastic bottles.

Inside the LC factories there are electric charging towers to encourage the use of environmentally friendly and eco-sustainable transport systems.

05 SUSTAINABILITY

"Be the change you wish to see in the world."

[MAHATMA GANDHI]

"The secret of making progress,
is to get started"
[MARK TWAIN]

NEW PROJECT OF EXPANSION

In the coming months we have planned investments of over €15M, demonstrating our strength and consolidation on the market.
