

HELIXTM
Pocket Spring

From The **VogueBedsGroup**TM

The innovative Helix Pocket Spring products are here.
Welcome to the new generation.

Established in 1990, Vogue Beds Group (VB Group) knows what it takes to create the perfect night's sleep.

All Vogue models feature the intelligent Helix Pocket™ Spring system. This Innovative spring system is very receptive to individual body weights and quickly adapts and adjust accordingly providing an equal sleeping surface for two people creating a softer feel on the outer edges and a support zone in the middle for that optimum sleep experience.

NEW for 2022 feature all Encapsulated mattresses are now Foam Free!

The new Helix Encapsulated has a firmer edge surround, with the 3 coils on the outer edge made to a higher metal gauge compared to the rest of the springs which gives edge to edge support.

The new encapsulated edge feels more natural compared to foam feel of the previous generation of Helix Encapsulated mattresses.

Reducing and removing foam content in mattresses is a key part of Vogue's strategy to the NBF's Pledge for the Planet commitment to becoming a more sustainable business.

The optional LUXURY element adds a 1000 micro pocket spring into the mattress, this is available on all Encapsulated Helix mattresses (except Supreme). The Luxury option adds that extra comfort layer and acts like 'air suspension' creating additional support without compromising on the comfort. The Luxury version mattress is finished off with twin piping in the pillow top border.

This comprehensive collection demonstrates Vogue's latest luxurious sleep systems with each model individually created to offer optimum comfort. With a choice of 25 fabric colour options in different grades along with dozens of headboard designs, this collection can also create a bespoke look to 'light' up any bedroom

So, lie back, relax and look forward to sweet dreams with Vogue.

ENCAPSULATED

A firmer edge surrounds which provides the outer coils with more support creating a 100% sleeping area with edge to edge support for better comfort.

HEALTH GUARD

Health Guard uses probiotics to help natural protection. The friendly 'bacteria' is an all-natural and effective protection, increasing the strength of the immune system.

TALALAY LATEX

The anti-microbial property of latex is ideal for allergy sufferers. The natural elasticity of latex recovers shape immediately for perfect support.

ENCAPSULATED

A firmer edge surrounds which provides the outer coils with more support creating a 100% sleeping area with edge to edge support for better comfort.

HEALTH GUARD

Health Guard uses probiotics to help natural protection. The friendly 'bacteria' is an all-natural and effective protection, increasing the strength of the immune system.

CASHMERE & COTTON

Natural Cashmere helps to keep you cool in Summer & cosy in Winter whilst the Cotton helps to wick away moisture keeping you fresh and dry.

Helix Natural Pocket Mattress – Encapsulated

From The **VogueBedsGroup**™

Welcome to the Helix Generation.

Featuring Health Guard

Health Guard uses probiotics to help natural protection. The friendly 'bacteria' is an all-natural and effective protection and when applied increases the probiotic power, helping to increase the strength of the immune system.

- Provides natural protection by effectively preventing the growth of hazardous bacteria
- Helps reduce the incidence of unwanted odours that are the result of bacteria
- Helps reduce the allergic effects of dust mites
- Helps reduce the incidence of unwanted odours
