OUR HOME: LOOKBOOK

To celebrate our first showroom event, we have created a special 'OUR HOME' lookbook, packed full of new product, all beautifully photographed and styled by timainsworth.com.

We are excited to show you the recent extensions and renovations to our home showrooms in Manchester. We are equally delighted to show you around the brand new collections, many of which are highlighted over these pages. Of particular note are our brand new Oak ranges – Hardwick and Lille. Reaching a slightly different market, we are keen to hear what you think. Peruse new dining, occasional, storage, art and homewares, with the knitted wire animals a particular highlight. Don't forget to pick up a copy of our 'Archive Collection' with exclusive 'Our Home' show offers on recently retired ranges. It's the perfect accompaniment to your visit.

MAKE AN ENTRANCE Hallway and Bootroom

First impressions can last, so a well designed, clutter free entrance area will set the tone for the whole house. These teak pieces add warmth and points of interest to hallways, while classic man-go lockers provide ample storage at the same time looking elegant and timeless.

Three dining tables that mean business. The round parquet top table extends to an oval that seats 6 – 8. There is a fixed top banquet style table, and an extending rectangular table with two hinged leaves. These new tables are all made from solid oak, and we have introduced the new pale linen Lincoln chair to accompany them, a classic style dining chair with antique brass stud details.

LILLE

A brand new range of living room pieces with a contemporary French style. Featuring two stylish sideboards, a console and a lamp table. Stand out pieces are the oversize coffee table and the stunning curved captains desk. In total there are six beautifully crafted pieces, made from weathered oak with rattan panels. The attention to detail is evident in each piece with blackened metal hardware, and subtle profiles and curves throughout.

ACCENT CHAIRS

For every room in our home, occasional chairs create softness and texture, and our featured selection include vintage velvet, loose weave twill, kubu grey bent bamboo, and natural teak and leather combinations.
