Fast Track

all you need to know...

What is Fast Track?

Fast Track means that we have it in stock and ready to go. So instead of waiting for a custom, made to order piece to go through the manufacturing process, you're ordering something with much shorter lead times. These items are created in our most popular shapes and colours so we know we have something you're going to love. Everything we produce within this range still has our usual high quality and amazing finishes.

Windermere

The Windermere extending dining table is a perfect blend of style and functionality, designed to accommodate both intimate dinners and larger gatherings.

How about delivery times?

Delivery times are dependent on the item you are ordering. We endeavour to hold our complete collection in stock for immediate dispatch to your retailer. Fast track items should be in stock and therefore we are able to offer these on shorter lead times. For bespoke pieces there are longer lead times for manufacture and delivery but we can advise you of these when you order.

Can I order bespoke items?

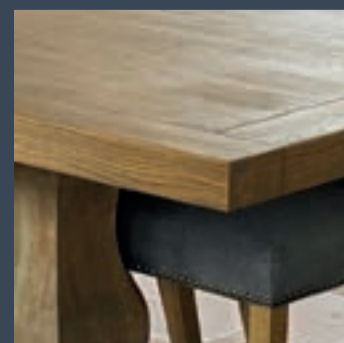

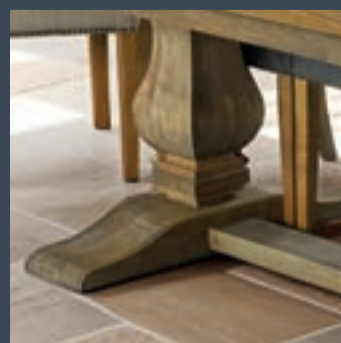

We can customise many of the shapes and designs that we already have. We have an extensive range of fabrics and leathers in many different articles and finishes that allow you to customise your individual piece of furniture to your taste. Wood finishing options can also be selected. For custom bespoke orders design and development of each piece is a longer process.
